THE LIGHT

From the Newsletter - Return of the Light

For those of you who know the Way, you must show the Way to others, the many others who do not know the Way. There is a Consciousness waiting for you called "Home." And it is scanning the planet, much like a mighty spaceship seeking its own.

The Light

Earth and all her inhabitants have entered the period of evolution rightly named *The Awakening*. All who have entered this planet as volunteers to assist in the New World program are being awakened by a tremendous outpouring of Love and Light. The intense Light that is focused on all those who are positively aiding the planet now will probe the darkness and the denseness until all are awakened into their Christ Selves.

This process of Awakening is not a slow process. It claims its own and pierces the ego to ignite the Christ Light within the heart. So many are being affected! The Light, as you are feeling and experiencing it, is your

quantum leap into a total shift of your attention and allegiance. You are waking up from a long sleep into a world of Christ Unity and preparation for the emergence of God the Supreme.

Your nights are spent in learning, in literally cramming for your exam in the universities of the New World. Have you noticed that your understanding of Truth has increased? This is a result of your studies - not only with the University of Melchizedek and other dimensions of spiritual studies, but also in the University at night. Your teachers, both here on earth and within the etheric realms, are working overtime - diligently - to connect you with your new assignment and your soul mission. You must take command now as the Christ Being you are.

The Great Light pierces the clouds of ignorance to remove the crystallization of the old world and its inhibiting program. Please hear this: *If you are one who has been "chosen" in this time of evolutionary change, you are being bombarded by the Light in order to open you to your Christ Spirit, your GodSelf.* Yes, you are being totally released from the old world program to act with the

Spiritual Hierarchy as a living Christ Sun. You are skillfully being transferred from a mortal existence - tied to earth and karmic attachments - to a Solar Kingdom where God and Man are one Be-ing, the GodSelf.

Take your rest when needed. Plenty of rest is required, for the body and mind are thrust into a New World of creative existence many octaves higher than what was formally experienced as "spiritual"! Read the *Immortality* book.¹ It has lots of good advice for these times. You are in the Resurrection, and you are lifting others as you respond to the Light with open arms and gladness of heart.

Seeing and Feeling Life in Its Wholeness

The next stage of development for all humanity is in the group experience of divine oneness, where consciousness is all life and is radiating that wholeness as Compassion. This is the Second Coming or the Christ-Buddha Emergence. All life, from the smallest to the tallest, must be given respect as a

The Solar Life: A Mighty Revelation

From the Newsletter - Return of the Light March 2007

Enter the Community of Being that I AM. The Solar Life is being extended to you now as the rhythm of the Supreme.

God vibrates as Community. The Universe vibrates as unity with all life as community. The Creative Power in Her highest degree is formed through a community of receptivity to the Creator's Will. The Life of God, Holy Spirit, is found in community. This is the World Order and it is time we achieve that community in our hearts and minds.

The Creator does not see us as individual; He sees Himself as whole. This is the base of your Solar Dimension and it is this energy field that is grounding the Ray of Sananda and the Creative Power of the Son.

The rivers of Light now pour onto this planet to vibrate into all her cells as Consciousness of the Solar Plane and the activity of the Christ.

Meet your dimensional shift in community, in cosmic consciousness. The transition and evolution of humanity is concerned with the Jesus Consciousness, the viewing of all life as a whole. The Creator's blessing of abundant life is in the realization of community, the body of God, the Solar Field of the I AM. Walk the death program no longer. That is the program of the lower self, the separation from God. It is a false program that is denied by the Creator.

Your demonstration of Creative

Power is dependent on the realization of community, wholeness and oneness with all life.

The test is to live together in genuine love and respect. The relationship of Israel and Palestine teach us of the principle of wholeness and oneness. They must embrace one another and see one another *in community*. We are in the midst of the Ingathering - that which is called the "Second Coming." Think, live in community with all life.

Conceive together the wonders and blessings I would give you as My Sons and Daughters in community with Me. Have the Power of the One. Centers are now opening to the universal Light of the One. Join these Centers in community.

In Community

The Solar Dimension introduces a vibratory commitment to community and the Circle of Life. In this dimension you will learn what community really means and how you can become a part of a new life that pulsates interconnectedness with the Grand Circle of Creative Being. The *Solar News*, Volume 5, Number 8, will give you a good idea of the energy flowing into the earth and how it is drawing all into community, while lifting all into a higher degree of revelation as a body.

Your conscious acceptance and transference into your Christ I AM presence as *your stabilized identity circuit* is the New World Order of Consciousness. This Consciousness is the awaited Second Coming of the Christ and is the frequency known as the Christ body, the Body of Light. We are now in this dimensional shift. Your ability to accept God's original plan enables our beloved planet Earth to shift her consciousness into the Christ Energy field that is ready and waiting.

Live with majesty as the divine expression of God. Walk and talk with majesty. In your realization of your place in the Kingdom of God, you will raise this planet to light and assist in her graduation into a New World of truth and beauty.

Community is the Creative Energy flowing through all of us as God's Will. We are loved and cherished in community and we are furnished with all our needs. God's world flows beautifully through us as we accept these truths and live them.

The New Era

In the body of flesh, the body of man, Lord Jesus realized and ignited the Christ Flame within us by his awareness that *I and*

the Father are one. (John 10:30) The Master rewrote the Code for humanity and proclaimed our divinity by his life. He became in his ascension our new life and he planted the Seed of Christ within each heart. Because Jesus was the Son of God in personification on this planet, he drew all humanity up into his divine blueprint. God became “closer than breathing and nearer than hands and feet.” As Jesus shared his spiritual awakening with all life on earth, so did he impart a new dispensation. The Earth is no longer lost and afraid. All life has been initiated into the Kingdom of God, into the Sonship of God, and into the Christos. There is no separation between the Spirit of God and humanity. The process of awakening to this Presence is now taking place. The Living Truth beckons.

Because of these important times and the planetary shift that is occurring, many representatives of the Melchizedek Order and its Priesthood have either incarnated or have quietly appeared to be of assistance in the turning over of this planet to Sananda.²

Rejoice! For the nature of man is community and he will found the Body of Light as Earth's governing energy field. Your God will be with you and the Solar Plane will vibrate into existence on earth as it is in heavenly spheres.

living part of the Great Body of the One. Sharing the suffering of one another will tell you that all life is connected; and at the primal point - the core - of all that is, is Intelligence. This core is the central point of your Universe and of you. Seeing and feeling all life as one whole, divine body causes immediate reaction of Love and of joining. Here lies the recipe for peace.

Living the GodSelf: Master Keys for Being A Preparation for the New World

Master K.H. (Kuthumi) has guided me to release at this time a weekly correspondence course that promises to assist you in preparing for the World of Light. The cost has been purposely kept at a minimum, so that all might participate in this divine spiritual journey offered by our beloved Masters. Originally written and titled *GodSelf Two* in 1993, the course has been edited and revised for this time of acceleration and ascension. The following is an introduction to the course given by the Master Saint Germain.

An Introduction to Living the GodSelf By Saint Germain

I would like you to know my part in the presentation of these *GodSelf* Lessons. I have prepared Crystal to receive the Vibration of the I AM Consciousness and to transmit My vibration through these records to those of you who will have me.

Let me introduce myself first. Perhaps many of you know me already. I AM the Master Saint Germain. And it is through the University of Melchizedek that I have chosen to present the updated material of the I AM Radiation.

I have served within the Hierarchy and the White Brotherhood as the Master Saint Germain. I AM one with the one you know as “Crystal,” and have

A Message from Sananda

From the Newsletter - Return of the Light October 2008

*I AM always you but you must know it, and in knowing you become immortal.
(From Immortality by Patricia Jepsen)*

Immortality is available through the University online store at <http://store.melchizedeklearning.com>.

A world leader is about to emerge. He will carry my stream of Light. He will sunlight this planet and bring offerings of pure gold to the people. He will lift hearts and heal the impoverished one with new hope. His light will carry to many planets as well. He will guide and direct and he will supervise the preparation for the Christ emerging form.

You will not see him as a leader but as a politician. Rightfully so, because he needs to be protected now as he gains strength in agreement with my Divine Will. His wife also is a messenger of light and she is appointed with him to carry the Flame. And his children are the children of the sacred New World. My sons will come forth and serve together in the Office of the Christ and this will be my time of greeting. With this I close.

The Solar Union of God and Man

The reunion of God and man (consciousness) is taking place. Without this union the Earth would fall. The Master Plan for the Earth planet is harmony and all must come to this without force or killing. When you know your heart center or Christ Center, you know the key to harmony with all life. And this the Creator plans for not only people,

but all life in all kingdoms. You must care for one another in all directions of Being. Omnipresence is not just a word; it is the Allness of Being in expression through all life from the smallest to the grandest. Then can you live in comfort and in light. This is the Resurrection.

Be at peace, My children, we are one.

The University of Melchizedek is designed to awaken and expand consciousness and to initiate the planet into Life-Light. The Melchizedek Records given through Crystal (Patricia Jepsen) open cords of Spirit and reintroduce the Life Circuit of our Universe Creator, Christ Michael. Under the supervision of Saint Germain and the Master K.H., entering the University is a passageway into Higher Mind and the levels of consciousness we call ascension.

The Second Coming of the Lord

There are several, if not numerous, versions, theories and revelations concerning the meaning of the "Second Coming." Some say that Jesus as the Christ will return to gather up those who have accepted Him as Lord. Others speak about the Christ within - that this living seed of God's presence will flame up causing many to ascend. Many see the Second Coming as a mystical happening of tremendous proportions that will sweep the Earth into a new orbit

and translate her people into light. I have always felt the more we think we know, the less we really know! What I have come to realize is that the Second Coming is *you*. We are individuals entertaining our divinity and rediscovering our closeness to one another and to our Creator. Thus, the "Second Coming" becomes our second opportunity to rise

above our differences into the oneness and the unity of Community. Much has been written about and revealed concerning the "Second Coming" within the pages of the University's materials, lessons, books and courses. But always there is more as the quest continues. A wonderful quest it is - full of revelation, amazing truth and thought-provoking ideas.

We are in a tremendous change and your energized faith and attention to the Divine Will as *your Inner Voice* will

assist in guiding the Earth and her creation into a new chapter of Light and Life intended. *Fear not, it is I.*

A wise and loving Australian Aboriginal Elder Guboo Ted Thomas used to say, "The best is yet to come!" And so it is. Bear witness to this by your life and by the joy that fills your cup to overflowing as you gratefully receive the "Second Coming" of the God Presence all through His creation.

Be blessed!

A Letter from the Director*

Last night and early evening (September 23, 2008) I, Crystal, was made particularly aware of the movement of incoming swirls of Light lifting this vortex station at Mount Shasta, California. I could see with inner vision the spiritual "takeover" of this Planet, and as I watched I could see the whole area - perhaps the entire Earth - being coaxed into ascension. Every particle and molecule was dancing as they circled with the wind of light! The area where I live was vibrating and ascending. Quite a show of force!

Yet to ascend with the planet comfortably and in joy, it is vital that human beings now let go of the world that was created out of a consciousness of separation from God. The Door to the new dimension of Light and Love will not open for us until we signal that we are ready to enter, to forgive and be forgiven, and to detach from a world of illusion. All power and all authority is leaving that

world. The Melchizedek Records, presented through the University of Melchizedek and translated through the dimensions of Being by my hand, carry the New World Consciousness and the presence of the great Masters of our Universe and Beyond. There are other star systems, you know, other places of refuge.

Yes, the Light is increasing. The University has been assigned to this planet to assist in the acceleration of heightened awareness and the awakening of planet Earth. You are invited to take advantage of the University web site and its many offerings of mystery school teachings at www.melchizedeklearning.com. Our University staff is at hand to assist you in this program.

Warmly,
Crystal (Patricia Jepsen)

Every time you ask for God's assistance in your life, Spirit answers as Spirit. Integrating your system as the mind alters, the heart opens, and the denser body shell drops away, the Spirit of God realizes Itself in you as you. (From Immortality by Patricia Jepsen)

been very close to her and to the University Center on this Earth. She receives directly in oneness with the Master Kuthumi and myself as a Scribe of Melchizedek. Let the Records stand, as she presents them, for they are accurate.

Now it is time for you, my chela and my disciple, to acknowledge the GodSelf or the Mighty I AM Presence as you. There must be no separation whatsoever as you breathe the loving breath of our Creator.

You will translate out of form shortly and then return to this Earth free of any discord. You will have your body - the physical and the etheric - under *your* command, and you will be able to travel by light, move as Be-ing, and call forth whatever you need by Decree.

This lesson material gives you a firm foundation for the "lift-off" and will serve you well as direction and guide in the Manifest Community of the I AM Presence.

It is with my full acknowledgment and agreement that I put my name to this Course. Crystal and I are but one hand and one thought.

I AM Saint Germain Radiating My Presence to you.
