YOU ARE RECREATED ANEW

The Solar News Vol. 2 #27

The miracle of the Christ Ascension is occurring. This rising energy focus takes you into the *Body of Christ*, into the Record of Sananda-Jesus and His conscious ascension. The Master reestablished for you the path of ascension, the way to your true Self, the Christ within. He who has given this is *with you* as you ascend and will be with you unto the end and the solar beginning.¹

The City of David is to be reestablished on Earth, as is the Pillar of Light that provides the spiritual dimension for the teachers and initiates of the Christ Flame. The Holy Mother oversees this Pillar of Light, as *the creative process begins* to bring all Home.

If you are familiar with the University materials, you already know that there is a dimensional shift occurring that dissolves the current expression of "life." Those who are ready will cross to the solar field of actualization. In this process, the

current life as lived with husbands, wives, children, relatives, karmic attachments, will return to nothingness. It is the end of one life and the return into the Solar Life of the Higher Self. Many incarnations have been lived. You now leave this life or incarnation for another. The new will break up the old life.

What I am saying here is that those who are ready and willing to realize their Higher Self or GodSelf will ascend, throwing off a life that is no longer valid in the Soul.

The current of this realization and transformation demands of you detachment, and an impersonal love for *all* life the same. The personal sense of family will disappear as you reclaim your Higher Self and the divine Family of God, all in All.

As the thought forms and attachments of the current incarnation are swept from you, keep your Eye single. Align with your Christ Self at the Heart Chakra. *Be there for Me*. This identification will enable you to vibrate the Christ Center as your whole being and your new life.

God has recognized you as His Son, Daughter. What this has

done in the wake of all that is occurring is to forbid the current process of reincarnation and karma! You must now join God as the Son, Daughter without "father or mother," or beginning or end. This frequency will break up matter quickly and will cause cosmic earthquakes that splinter the ground you stand on. *No matter where you are, I will claim you. You will be stripped of ownership and given divine life in Me.*

It is important to remember that in moments of spiritual darkness, agree with your original creation. You are being recircuited, remember. Your current is love and your identification is as God in you.

Reestablish your God residence in your Heart. Send Light to all four directions. Claim your new name that is the Son or Sun Radiance of Me.

Now jump over the chasm. Deliver My people to Love. From emptiness comes fullness.

Solar radiance is the Divine Self.

A NEW CYCLE HAS BEGUN

The Solar News Vol. 2 #30

Wellington, New Zealand
November 2002

The cosmic shift has occurred. It is now in its infancy and shall be heard. The moments of waiting are over. You are blessed to be in this part of the country where this has occurred, and the ripples of this new dawning shall cover this planet Earth.

Each morning remember that you are in the beginning, the first moments of dawning, and you are receiving my words of divine intelligence and pure light, as the sun shines upon your heart-mind.

Let us walk together, you and I. We have always been One, yet in this time and in this very moment the cycle has shifted and we are truly one in consciousness divine. Now march. Many will join you in your march as you travel this earth in light, beaming out the presence of Christ in man.

We are One. What a divine moment this is. How glorious is the past that it might unfold into the present as a new Earth is born. A new cycle has begun. We listen and we know. We are conscious of our Queen Earth and her benevolence to us and we know the Truth within. For the wisdom of the grandmothers is with us and we have not forgotten.

Planetary government is restored. It is in the heart of our natures and as we realize the ringing voice of Truth, we are bringing revelation and conscious realization; we are setting

this governance upon the earth. And it is right that we be here in Wellington, for in Wellington it begins and the bells toll. Blessed are those who have participated in this movement on earth. Throughout our global planet, we bless you.

And now we turn to the east to where much is unfolding in troubled times. The clashing and clanging of that which must dissolve and go. Let the past be forgotten. Now harmony reigns supreme and will have its way through the Mother's heart.

Blessed are those who have participated here in this root of a new beginning, for they have been part of the opening and a new movement of translation into the spirit of love. For I will govern by the Mother's Hand. I will bring cosmic justice to earth and you will hear My Voice through the women's voice. I have tested My vehicles well.

Let the light so shine. Let the beloved men¹ who have been so supportive and so protective now receive the glory of their women within. Let them know also that they are a glorious part of this planetary change, as woman takes the helm and governs well through the Voice of Truth.

Beloveds, we are One. Now ask and it shall be given. Seek and you

shall find, for I will listen. I have come and you, My beloveds, will be spokespersons of My Oneness and the light of the Solar Son. Therefore, I bequeath to you in this moment, in this moment of revelation and divine truth at this place of the first dawning in Wellington, New Zealand, the Melchizedek Power, the right use of it in alignment with the Father's Will.

The Mother has shifted Her energy into the children of the light, peoples of the light. And you will see many, many changes - first here and then through the earth - as My government becomes your government and the reins of power are turned over to the people and they govern well.

For here² I AM amongst you, the given Truth. And I AM THAT I AM. So let the solar light shine. Know your own inner guidance. Seek Me first above all else that I might walk in My place in you as the fullness thereof, as the governance of My nations, as the overseer of My Word³ and so it is.

May peace reign on this planet and all life be respected and regarded as holy and divine. I say all, from the rock to the mountain. Let it be so and it is. Holy, holy, holy!

GROUP ENERGY

The Solar News Vol. 1 #24

To the group core energy field, you bring your conscious alignment with the Inner Voice. Your Inner Voice is your Creator within; It is the Voice of governance and oneness. Thus, you align as a participant in the group energy field as One. Group energy must vibrate as One. That is harmony and absolute rhythm with the Creator's Plan.

Individual responsibility in the Voice creates *Group Energy*. As the Voice is Creative Substance as the Creator (I AM), so does It always connect, attune and vibrate the I AM presence or One. To the Group, the individual must bring his or her Inner Voice. Completely conscious and fully aware of the bonding principle that results from this creative union (of Thought Adjusters)¹, a greater Spirit or faculty emerges as the highest peak of group intelligence. Essentially, this is the Creator emerging through the Group.

One is Group Energy; One is Creative Intelligence emerging as the Consciousness of the Plan.

So, if you have every individual within a group circle aligned and in constant, consistent agreement with his or her Inner Voice, you will have the Group Experience of a Unified Circle as One. From this must come God's Plan on Earth, clothed with and by the Holy Spirit. *Let the Record stand.*²

This is freedom. When one strays by choice from the circle or Holy Spirit containment and rhythm see that the place vacated is *filled* immediately and without a moment's delay. Close the circle, as you would your aura, in your conscious awareness, knowing and realizing God is One, the divine unity of Being. Then permit that Oneness to personify: a stranger may join your circle, yet - as unfamiliar as that person may be - he or she will be the

right complementary energy for your group vibration.

Every ashram³ contains a core vibration or Synergy. This controls and maintains the equilibrium of the ashram. In an outreach, such as Sananda has, all appointed stations of His Light act as Circles or ashrams within the Ashram.

From the smallest Circle to the grandest and greatest, one fallen link can and will affect the entire chain. Therefore, I say to you: Keep your alignment with the Inner Voice (the Christ dimension, I AM) and fulfill your mission assignments for the good of the Whole.

The Importance of Staying Centered

Because of the increased energy now connecting us to the GodSelf and the Entrance of the Divine Mother Spirit as birthing process for a new race of humanity, we must all keep careful watch over our thoughts and emotions.

The entrance of a higher degree of Creative Power and the increase in light causes a quickening of manifestation. This is why we must all take charge of our world and be responsible for all thoughts

¹ The Thought Adjuster indwells you and is the the Father Fragment or Spirit of the Universal Father. Jesus called the Thought Adjuster "the Father within." This Thought Adjuster is the creative outlet and embodiment of the Inner Voice or Christ Voice.

² What has been written is approved by the authority of the Christ Council of Melchizedek and the Great White Brotherhood.

³ A vibrating core energy field of a Master or Ascended Master. A depository for the emanation of the Master and His/Her disciples or chelas. The ashram receives the plan of the Master and enables it to flow forth as deliberate energy into creative results.

NEW WORLD PROCLAMATION

The Solar News Vol. 1 # 8

Establish the New World as your consciousness, then go forth as the New World. You are the pillar of the New World.

The New World is the activity of Christ in your consciousness. The World that the Master Jesus (Sananda) has prepared for you is ready for you now. ("I go to prepare a place for you," the Master said.) Step into it with Me, with the assurance that it is total and complete in the Christ Energy field of love and light. Turn not back. Recall the story of Lot's wife. Let the dead bury the dead. So that all might be light, follow Me.

Let the world dissolve as you have known it. Your soul yearns for the New World, the World of Light. Be there with Me; and I enfold you with My Self, God in you.

Be reborn this day into a magnificent day of joy and love. Create out of yourself the things that you need. Release and let go of old thought forms and human patterns that have imprisoned you in the world of illusion or maya. Grow out of yourself into the light.

Sananda Speaks

If you can agree that the New World is your world - it is the world of Christ life, joy and abundance - then release yourself from the nets of an old, fast decaying world. The Father's Kingdom is far greater than you can

imagine. Regroup your thoughts into that Kingdom of love and light so that all might be free in the order of Melchizedek.

Lord Sananda is the Governor of this New World. He is the overseer. He oversees the workings of this New World and officiates as its coordinator. All Laws come from Him, generated from His hand. Let the Record show this.

Take no thought for what you should eat, when you should sleep or how you should wear your clothes, for these things are no longer valid in the World of Light. I AM the way, the truth and the life, and it is through Me that you enter this New World of Solar Christ. He who is in My world is fed of My hand and clothed by My word.¹ I AM the Adjuster, Father within, nature of the Lord in you. Be clothed in Spirit and all things shall come to pass in the promise of God who abides in all as love.

Recognize that love within every soul. Look not to the outer or in any way judge the outer form. For that is not lasting. You cast yourself into the temporal when you do this. Judge not one another but be the judge of yourself. *Know who you are!* Have the courage to be.

Gather now around Me. Lift your thoughts to the World of Light. Be not fooled by the mesmerism of this world. I cancel all debt. There is only one. Be free in that one. Go forth in that one, so that all might feel the Presence of the Body and give birth to their own soul life. See that all is done in My name and all will be well.

So let it be. I AM Sananda, the appointed one. Let it be known.

You Are One

God works His wondrous ways through you. God's world is your world in love. Pass through the open door into a new life of joy and prosperity. Sit with the gods and follow your heart in fulfilling your part.

Let no one dissuade you from your task. Deliver this Earth up unto Me. For this you have come.

No one is greater or lesser. All is one, the body of light. The rebirth of the Kingdom of God has begun. Look not right or left, so that all might follow you into the Sun of the New World.

Now, Come!

GROUP ENERGY

and emotions!

We have crossed into a new energy field where instant objectification of our consciousness is experienced. The dynamics of this new dimension is impacting many. Remember that you are in charge of your world, a world of light. Any thought or feeling entering your consciousness must be of the Christ; it must be registering the highest truth in unconditional love. You will not be comfortable in anything else.

In summary: Because of the increase in light, every thought and feeling is manifesting much faster than previously. You are to take charge of your world, your thoughts and your emotions, so that when you enter Group Service the manifestation of God Consciousness as Group Energy can and will transform this Earth.

Etheric Broadcast - June 6, 2002

This is to introduce a new dimension for the University as we move into a higher level of energy to manifest the schools of Melchizedek, of which there are seven on Earth. We now want you to realize your part in the demonstration of this University as it locks into Earth in the vibration of the Holy Mother. Cells are being removed that are not activating the proper alignment in the University focus. I want you to be aware of this. Whereas new cells are emerging which will be actively participating in

the full University message of complete union with Creator Michael. The heavens will rock with this as will our planet. See, she is smiling now.

As you release old tendencies of past records and deliberately step into your place, and know what you are to do now, we of the Melchizedek order and the residing Council of Melchizedek will welcome you into our ranks. Please know that there is a great need for the University teachings to remain on this planet and to restore her to proper balance with our Creator. Never before has there been such a need as we are facing at this moment in time. Go, please, to your stations of light. Remain in active mode so that that which is to be given through your heart-mind will be answered immediately, and we will know that we have found the proper relationship with you. Be guided by your Inner Voice. Be lifted now into your own Higher Self and vibrate the placement of your own station as one with the Body of Light.

The Melchizedek record will be opened on Earth. We will serve only the Creator's plan and His vibration as the Queen Mother enters this planet carrying with Her the records of Melchizedek and the vibrating essence of the Holy Son.

Now, please, take your places and remain on alert. This is a time of great revelation, and

solar sounds will be heard throughout the cosmos, throughout the energy fields of those who are open and listening to the Creator intelligence in them.

Peace be with you. I AM Sananda, Planetary Prince. We are welcoming you into the fold.

Broadcast closed.

Walk in Opulence/New Day
(in CD & Mp3 formats)

A good coverage of the Laws of Manifestation. This is a very strong commitment to the manifestation process.

Part 1 sends a clear message to the subconscious mind through decrees that vibrate the peace and power of the I AM Presence. If you have any hesitation about "claiming your good," this recording is recommended.

Part 2 offers guidance on building group energy.
