TRANSLATION! The Great Harvest

The University Papers #121

The power of your universe is being thrust upon you as a new reality claims your focus. You are in the presence of many ascended masters who are devoted to the overturning of the false world.

Energy waiting to unfold becomes your awareness. The moment you are ready to release the false energies of the material plane you can be translated overcoming the lower form entirely.

To enter this blessed Act of translation one must be willing to become a priestess or priest after the Order of Melchizedek. The final days make this apparent as no one is allowed into the Kitchen of Love without undergoing change in body, mind and soul. Your energy sphere must contain now the revelations of light and attraction to the "Will of the Father." On pages two and three of this Paper I will define what I mean by

the word translation, priestess and priest after the Order of Melchizedek and the Kitchen of Love.

When you leave the world of false influences you enter into the one sphere where I AM. This is the Christ sphere where the many Councils of Light abide as the Great Sun shining upon you now. This is the time for great revelations; so let us be about the Father's business.

The Meaning Of Translation

You are the GodSelf and the GodSelf is you. You were born as the GodSelf. This is the metaphysical principle of your life. When you are ready to release the material plane of survival and assurances that you will survive you find yourself in a new body of realized consciousness. This is the transfiguration. The glory of God walks with you then in all ways.

Your decision to become translated must originate from your high self. It is part of your soul plan. Therefore - and this is important - it is entirely up to your high self or realized GodSelf to initiate the translation. The lower self or personal self plays no part in the active agreement because the process of translation

incorporates not only the divine Light of God's Will for you but the Destroyer who must instantly and spontaneously transmute all energy patterns having to do with lower desires into the precious GodSelf and divine service to the Plan of God in you.

Preparation is now at hand for translation for many of you presently reading this document. We are not waiting any longer.¹ There has been too much struggle amongst many of you. When you struggle against your own plan and the divine Self you truly are, you lose much energy that could be applied to saving humanity and rebuilding our planet. The Act of translation aligns instantly the individual with the presence of God and the divine Will flowing from the World Mother and Her Master Corps.

Look to the period following the Solstice (1997) to begin mass translation. We will be taking you into the light and bringing you through back onto earth to become a vessel of selflessness, divine service and infinite love.

The signals of translation can be the following: Increased light within the body itself.

TRANSLATION!

The Great Harvest

Presence of pure light energy actually flowing through your veins as a trigger for the change. Denial of personal love so that the Christ divine presence can be felt and restored to the heart. And finally: Heat, burning heat, that requires immediate surrender to the Higher Mind or the Will of God. If you experience any or all of these signals, stop activity and pay attention to the process. There is no need to be frightened as you have all the help you need in the burning of the false veils and the change over to the power of your true self at one with Spirit God. But most important is your devotion and your desire to really serve your soul plan and your Christ mission on earth.

Priestess And Priest After The Order Of Melchizedek

Every priestess or priest must undergo translation before he or she is accepted into the Order of Perfect Man. The GodSelf will interrupt any and all activities of the unillumined self when the time is right for the translation.

The priest and priestess of the Order of Melchizedek carry the “No Death Program” that is emerging on this planet as truth. Until translation the individual is subject to death. But the reins of death hold no power for the initiate who knows the Word *Melchizedek*.

The Order of Melchizedek, closely guarded and protected by its priesthood, is the direct and vibrant emanation of the Divine Son-Daughter. It carries and allows the firmament of the First Son to emerge through the heart of the individual and it will distribute understanding of

continued from page 2

the Universe and Beyond to those waiting to know. The time has come to introduce this Order of Law and Light to the Earth planet once again. To reintroduce this Order we have Schools of Melchizedek emerging in appointed vortexes throughout the Earth.

The Office of priest or priestess of the Order is very sacred indeed. There is no “self” in the priesthood nor concern for self. The divine energy of the Will of the Father passes through the priesthood into the Earth herself. Those who are initiated into the priesthood are carriers of the sacred Flame of Melchizedek.

The Kitchen of Love

This is a sphere of the Christ domain. It is a reality dimension or sphere where only love abides. The acceptance of divine love as the substance of all life is maintained as an activity of consciousness. This love that I speak of is all inclusive. Because in occupying this sphere you have released all desire for personal love, there is only the Christ vibration of perfect love and light. This is the land of light we speak of throughout our Papers. It is a place of Universal Love. To be Christed you must be in this place of awareness and no thought must go to self.

Be focused on the Light. The shield of protection that has been around this planet is being

removed and the World Mother has ordered that intense energy be admitted and felt as a precursor to the entrance of the Christ field of divine love.

Be attentive. Receive the golden light of Sananda. *Behold it.* It will be for you to translate all cells of your body into light at this time.

Words From The Deathless One...

As I, Crystal, glanced up from my writing to the beautiful picture of the Eternal One Babaji, I paused. And then I wrote...

Enter the place of no life. As the patterns change on the planet and within your soul, the place of no life is where you will coordinate with others in a new dimension of pure love. Where there is no life there is no death. It is a pure expression of I AM, of pure being. It is the station of the Cross, the threshold into a new cellular consistency. It is a place where emptiness is filled and abundance is the way. Once you have found this place within you, you will never leave it again. You are returned to the Monad, the Presence, and here you abide as one with the Hierarchy of this planet and the Great White Brotherhood. Take the mask off! You have become!

The above message is for those who will accept and can understand. If this message is for you, believe in it and walk with it; for you have conquered death. Crystal

The Thought Adjuster

The University Papers #127

God's World Is Not Your World

I heard these words a number of years ago. The presence of God within me as Truth spoke these words and I have remembered them for they carried an instruction of where I was going in my spiritual journey.

Recently an Inner Voice Class that I facilitate repeated a lesson from our Urantia Book class. And before I carry this any further I recommend the entire section in The Urantia Book on the Thought Adjuster¹. It is a very important section and releases to you information that may have eluded you in other studies of that which we may call "the Inner Voice." This particular section focuses on the Father within or Thought Adjuster and the integration of the Thought Adjuster with the promise of eventual fusion. It is a very thorough section and will leave you in a far different place than perhaps you have consciously realized in previous studies.

This lesson of The University Papers is focused on a particular class on the Inner Voice that was inspired by a portion of our "Urantia Study Group."

Jesus frequently referred to his Thought Adjuster as "the Father within." You are encouraged to reread the Master's words as he spoke of the urgency of listening and aligning with the Thought Adjuster as the Father within.

I shall never leave you.

Jesus is with you as the current of God in you. His presence as recognized leader of the universe bestows the Thought Adjuster as a living part of your soul and your conscious mind.

Last night at the Urantia class we were continuing a portion of the last segment on the Thought Adjuster. And again it was stressed so strongly how important it is to be aware of the Father within you, the Thought Adjuster, the Spirit of that inner voice that dwells within you as part of yourself. That part that is closer than breathing desires to fuse with you that you might be a spiritual being.

The more we intensify our spiritual studies and contemplate the oneness of God and man, the less we can accomplish without the God presence. This God presence becomes the arm and the limb of ourselves.

Forgetting to include God as the living vibration of all that we are and all that we do, we will find that we become weaker and weaker and weaker. Our strength begins to diminish. Our limbs become powerless. Our minds become blank because the more we dwell on that one within, the more we *must accept and be willing* to seek the Father's will as our

own. We must walk as one unit or not walk at all!

In the vibration of this oneness, every thought is translated to the mind of God -- that there be *one mind* in operation -- and this is "the Word."

I warn you, students of the light, that you will need increasingly to keep your eye single, to focus on the Christ within, the God mind. That you are a spiritual being is already recognized and recorded. Take up that spiritual life and perform as masters all.

The wonderful story and the symbolism of the fall of man tells us what happens when we divide ourselves from God, from the Thought Adjuster, from the I AM presence, from the Father within. And when we return home, we are everything and all things. *We are truly Godlike.* In this ascension, you must be cognizant and forever present in the divine presence. *You cannot do it alone nor walk it alone.* It is no longer possible. **I will weaken you until you hear me in this and then I will strengthen you and I will give you the power of My Son.**

Jesus walked as *I AM*. Now

you walk the same way as the son. Knowing the Master is *already* in place, you can, you will. Abide in Me and I will abide in you and together we ascend as I AM.

You see how silly it is to struggle for economic security when you have God within you? When you have everything and never could be without? *How could one be strong without My strength? How could one have glory without My glory? These things are for you in Me so let us be about the Father's business.*

The Melchizedek Star

Have any of you had an experience recently of a closer relationship to the Inner Voice, a closer relationship to the presence of God in you? Has that Inner Voice, has the Thought Adjuster in some way declared its presence in a stronger or different way? Are you aware of something changing for you?

One of the strongest ways that we can center ourselves is to envision the Star of Melchizedek. The Star is the symbol of your complete Man or *consciousness*. The six-pointed star, usually referred to as the Star of David, represents the completed Man or universal consciousness. It is the joining and actual fusion symbol of the union of the Thought Adjuster and Man. It is I AM THAT I AM or *the order of Melchizedek*.

That symbol is a secret code that will send forth through your whole system the message of the Father's plan on earth. You will be centered by this symbol.

The Star of Melchizedek, radiating through your whole being, signals

continued from page 4

your agreement with your GodSelf. *As a mortal in the flesh you are powerless. As My son you have command of heaven and earth.*

The Quantum Leap

Let God express. Now that's not a passive place: to let. Far from it! Because your consciousness travels right along with the letting. It is a trip you are taking consciously: right into the GodSelf where *I and the Father* (your Thought Adjuster) *are One*. You do not lose yourself in the letting, rather do you *Be*come! The Great Lake of *Being* opens up to you *as Superconscious Mind*. The High Self takes over and you are the High Self in this level of conscious awareness.

That conscious interplay and direct relationship that you have with your Thought Adjuster causes the frequency to change and for you, there is a quantum leap into Christ awareness or the Divine One who you are.

Letting God express is a higher energy plane *of your own being*. It is the "second coming." It is the fourth dimension of realization that *I and the Father are one*.

Remember all human effort must cease for the divine to take over. That is the death in life. It is the transference into the reality circuit of the I AM presence. When we die to *Be*, we become the light of the world and the world knows us not. We

are the sun of our sacred center. We are born of Spirit and if we can accept this and truly live it, then we will translate out of the death program. When Jesus said that we must lose our life to find it, he meant what is said here. **When you are governed by the Spirit you are no longer subject to death as you mortals experience it on earth.**

In The Ways Of My Heart, Be.

This is the time for true mastership on earth and you are part of that expression. The divine Son, Sun, in expression is the Master. The Christ (within your heart) *is the union of the Father and you*. The released Son or Christ is the self-mastery that you seek. It's the union of you and the GodSelf. It's the joining of the two as one. Cease the human effort and let the divine express.

Let Peace Come

There are no boundaries. There is only the Spirit.

The Spirit within you is continually releasing harmony and peace. Meet conflict with love. Wake up your love center and use it! Meet resistance with harmony. *Live in the place I have provided.*

Can you sense the power and transformative energy field as

continued on page 6

The Thought Adjuster

you release harmony? You do not try to change anything, just release harmony. It is like a wave of energy that flows from you. And it is impersonal in its demonstration. When there is resistance in your life, release harmony and you will experience the Christ in manifestation.

You have been given the spirit of harmony to release to humanity. Join with that master ray, that point where the forces are together, and release the harmony that is the governance of our earth. Just let it roll from you like a wave. Essentially you will have the mastery of all situations when you do this because the master *is* the harmony. And the harmony rules the earth. Again it's beyond the human mind. It is a point of deliverance. If you were to look into Sananda's heart, you would see this river of harmony. Even your words will change, the way you speak the energy behind your words. You will be able to handle temptation *because you are beyond temptation*. And this is a promise of the Master to you at this time.

Your real body is to emerge and it is *complementary energy* to the radiant master form. You are to speak in tune with the Master's voice and your sounds will be like commands unto the heaven. There is no breathing other than the breath of the Holy Mother, which is the Mother's life in you. That Breath² will correct any mistakes that you have made, any afflictions of the spirit, any imbalances that you may have responded to and so taken upon yourself.

²Divine Substance unaltered by man's will.

continued from page 5

Remember to breathe in the Holy Breath as the *one breath*. Don't limit Me! In the Breath (Divine Life intended) I AM all things in My poerfection. I cast My seed upon the Breath.

This is the Breath that knows *only* the perfect pattern of Christ. And that Breath, of course, builds the body of light which is the immaculate body of the Son, your glory mode. This is the merkabah.

More About The Breath

When you feel low in energy, go to the Breath of Life! Breathe the power and the Life of God into you. You are a divine Son-Daughter, let God fill you with the spiritual fire of Himself. Remember who you are and go directly to the Breath. What has come upon you is My life as I have made you of Me.

You are a spiritual being. You breathe the spiritual breath, the life of the Mother, and the Christos will shine.

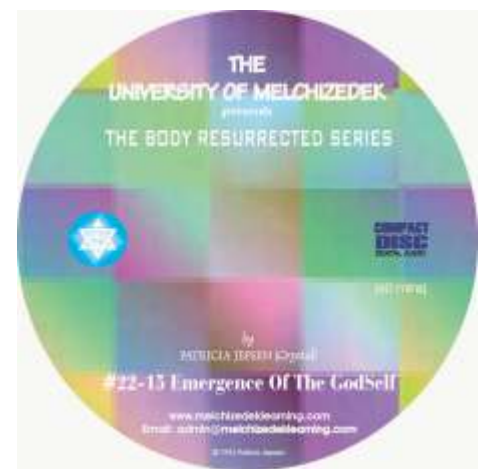

You are ageless. Forget age. No reason to add a year to your life. You have but to be. You are ageless beings. Ageless and without death. You've

taken on a new life. The Mother's breath is part of that life. Breathe with Her at one.

I introduce to you the body of light. You are examples to others. Your connection to the light energy is important to begin to show others what I have for them.

Take up your posts now and Be.

#22-15 Emergence Of The GodSelf: The Voice of Sanat Kumara, Ancient of Days, receives Earth into the Light, "I have restored the planet to light. She is requalified in light Now that I have opened the doors to light, the light will come in." This is a call to the GodSelf to emerge in the frequency of light. This is a call for the Seven Children Under the Son to say, "Amen!" Crystal talks about the evolution of humanity as well as all creation on side 2. 60 min.

The GodSelf

The University Papers #129

You have a place within you where the creative power dissolves into the golden city of God. This golden treasury is the place of unification where God and you are one. This place is the GodSelf and is met in you in the heart.

Indeed, this *treasury of gold* is the place of energy where the forces meet in the headquarters of the Son or Sun. As your heart is opened you will find this presence of Christ within yourself. This glorious Consciousness is beginning to emerge more and more as children of the light turn their lives over to God.

The place of the heart is the vortex for God awareness and transmutation of all ascending and descending vibrations. To unify the whole, go to the heart castle and vibrate with the Christ I AM. Maintaining this heart rhythm, while in the gravity circuits of earth, is not difficult when the sense of self or ego is returned to God. The letting go of the lower ego-self and the acceptance of the Spirit of God throughout your system permits the GodSelf to emerge as the Solar Son/Sun. The presence of this Sun *as your GodSelf* is the key to a new world of unity and wondrous light.

The Master's gate is open and the words of his intent radiate forth like a great sun of energy to be

received into your hearts and minds and to radiate out again as the form complete.

As I sat here in meditation, I realized the power of harmony and oneness, peace and love. And that as we permit the waves of these *life forces* to vibrate through us without giving thought to any form of illusion whatsoever, we will be amazed at what can be achieved and accomplished.

Last night in the group meditation it was stressed how important it is to be aware of the Father within you, the Thought Adjuster, the Divine Spirit of that inner voice that dwells within you *as part of yourself* - that part that is drawing ever closer, yes, closer than breathing - who desires to fuse with you as the GodSelf. Certainly the more we read and we meditate on the presence of God as oneness, the unity of all life, the less we are able to do without God. It is a meshing that is taking place between the human being and "the Father within."

The more we seek the Spirit of God in our lives, the more we experience that we cannot do without God. We must include God in our lives, in the human experience. A partnership is consciously awakening within those who are ready for such an attunement. *This partnership is the new creation, the Godman or GodSelf.*

The more we dwell on the Father within, the more we must be willing to ascend to that Will and that Way. To allow every thought to be the thought of God and to be the action of the Spirit in our daily life is to pay a lasting tribute to the Master Jesus' presence on our earth.

Please have caution...

I warn you, students of the light, that you will need increasingly to keep your eye single, to focus on the Christ within, the God mind. That you are a spiritual being is already recognized and recorded. Take up that spiritual life and perform as masters all.

The wonderful story and the symbolism of the fall of man tells us what happens when we divide ourselves from God, from the Thought Adjuster, from the I AM presence, from God within us. And when we return home, we are everything and all things. We are truly Godlike.

In this ascension, you must be cognizant and forever present in the presence. You cannot do it alone nor walk it alone. It is no longer possible. *I will weaken you until you hear Me in this and then I will strengthen you*

and I will give you the power of My Son. Jesus walked as I AM. Now you walk the same way as the Son. Knowing the Master is already in place, you can, you will. Abide in Me and I will abide in you and together we ascend as I AM.

I have records of you that you must contend with now.

You see how silly it is to struggle for survival when you have God within you? When you have *everything* and never could be without? *How could one be strong without My strength? How could one have glory without My glory? These things are for you in Me so let us be about the Father's business.* And that's a pretty strong reminder of why we're here and what we decided to do before we descended to earth.

The ancient symbol of Melchizedek

Have you had an experience recently of a closer relationship to the Inner Voice, a closer relationship to the presence of God in you? Has that Inner Voice, your Thought Adjuster, in some way declared its presence in a stronger way than how you have previously experienced It? Are you aware of something changing for you?

One of the strongest ways that we can reconnect is to flash into our conscious awareness *the star of Melchizedek*, the Christ Star of Ascension. This Christ energy field is for you to enter now and to realize as your own presence.

continued from page 7

The star of Melchizedek represents the completed Man or consciousness. It is the ancient symbol of fusion with your Thought Adjuster. It is the rhythm of the GodSelf. At this time of awakening, the star of Melchizedek will be seen in the horizon of earth as a greeting from our order and as a welcoming into life eternal.

The ancient symbol of the fused Man is a secret code that will alert all segments of your being as a call to oneness. This symbol when accepted and recognized signals to the subconscious mind that you are ready for union with God. **As a mortal in the flesh you are powerless. As My son you have command of heaven and earth.**

The end and the beginning

With the present cosmic shift now taking place on your planet there are adjustments to be made for your comfort and participation on earth. The Cosmic Intent is to usher in the presence of *God The Supreme*. In reviewing your previous lessons in the Order, you may recall that the cosmic shift is inevitable. It cannot nor will it be stopped. The Supreme actualizing is the presence of God within all creation and it (the cosmic shift) introduces intelligent life energy that acts for the good of the whole and the focused intent or world plan of the Hierarchy. We are facing a quantum leap in dimensional reality.

The Mind of God and the ways of the Master

Let God express. Now that's not a passive place. It is not a place where you relinquish all identity. It is an atomic union I speak of where there is *a new person* born of a new order and that person is the GodSelf.

In releasing yourself to God and realizing God is Mind and Action, you are strengthening the GodSelf in Its initiatory form *as you*. In this way do you begin the interplay that ignites the active relationship between God and you. The place in you where God is expressing as word and deed is your superconscious mind. It is the locale of the Son/Sun. It is a higher energy plane of your own being that becomes cognizant of itself. Once this superconscious energy field has been awakened and activated, you as an initiate are bound no longer by the material plane.

Here is a caution. Stay in the register of oneness with God where the mind intent of God forms your world. Here in this dimension your Inner Voice is the presence of God. Your will is surrendered into or in agreement with the Will of "the Father" and all attachments have been released. No sense of ego here! No superiority! All goes back to the One and in the One is humility and harmlessness and selfless service to all creation.

Compassion reigns supreme. Here in this Giving Spirit all life is respected. It is time to go there. You are called.

Seal of Melchizedek

All human effort must cease for the divine to take over. And that is the death in life and the rebirth into Life intended. Cease the human effort and let the divine express.

In the days to come

Even your words will change. The way you speak. The energy behind your words. You'll be able to handle temptation because you are beyond temptation. And this is a promise of the Master to you at this time. Your real body is to emerge and it is complementary energy to the radiant master form. You are to speak in tune with the Master's voice and your sounds will be like commands unto the heavens. And that breath, of course, builds the body of light which is the immaculate body of the son. And this is the

You are ageless. Forget age. *No reason to add a year to your life.* You have but to be. You are ageless beings. *Ageless and without death.*

You have taken on a new life. The Mother's breath is part of that life. Breathe with Her at one. I introduce to you the body of light. You are examples to others. Your connection to the light energy is important to begin to show others what I have for them.
