RESURRECTION

The University Papers Volume 70, #135

Embodying now is the resurrected energy field of your Planet Earth. You are experiencing with Earth this vast and purified energy alignment. The basic resolutions of this planetary field are TRUTH. Each and every one—including the tiniest flower—can feel this Truth as a system of realized government. This is the CHRIST TRUTH: the Creative Power emerging. It is the vibration of Unity and Presence.

The whole Earth is shifting as the triune, purposeful energy field of the “Son of God” becomes its reality. The Presence of the Son of God indicates *unified being*. *This is dimensionally your Christ Vibration*, the pure and loving essence of God the Creator.

For the time has come, my dear one, when all of you will experience Truth as God's Creation on earth. And the more you achieve this Truth within yourself, the more the energy from higher dimensions can be absorbed and realized for you as well as the planet.

You have been called to serve the planet at her time of change into a glowing spiral of joyous Presence. *This is a solar planet. A planet of God.* As you step into this New World, be aware that we have laws for the solar kingdom and great love for all.

The spiraling energy field of the planet *is the Resurrection*. This Resurrection resembles a spiraling energy sphere that has emerged and grows stronger by the hour. Thus, to actually stay with Earth *in her Resurrected body*, the world of human domination must be discarded. It is time to return to the light.

HEAVEN ON EARTH AND THE BAPTISM OF THE HOLY SPIRIT

Living in the Resurrection means a state of harmlessness, of joy with the Spirit, and it means

becoming a conscious member of all that lives and loves on this planet.

What has been labeled “new age” has missed the mark. There has been little to no attention paid to *all life intended*. The God conscious individual knows that all life is sacred and practices this sacredness.

The human life is over as we have known it. Reclothed in the baptism of the Holy Spirit, a new life emerges as Christed intelligence. It is this Emergence (the second coming of the Christ), this energy field of unconditional love, that is the package for the true new age. *It is the Creator emerging as life intended. All life.*

The new solar age is one of cooperation, unified Be-ing, compassion for all life. It is the ascension into one life, the life that realizes itself as every living thing. It is a life of plenty because God is everything. And it (the solar age) will be overshadowed by The Christ until this age is stabilized and reflecting only the purity of being.

Divine Mind rules this New World. The Mind that is in every

thing, every one, stone, snake, supreme being. To begin to understand the new Earth and the resurrected field of which she has found herself, one must release "self" into the Oneness of All Life.

You cannot practice divine love, the unity of all life, and let animal suffering continue. This is not possible. Humanity, itself, must awaken to the compassionate stirring of the Incoming Christ. For far too long, human beings have permitted animal suffering for selfish reasons, be it for the pleasure of food, for the insurance against disease, or for entertainment. The willful slaughter of terrified animals for food, animal testing and personal enjoyment (such as bullfighting, rodeos, hunting) has contributed to wars and unhappiness on earth. Contemplate what humans have allowed in the name of human dominion. All this will end as the spiraling planetary force of the Resurrection takes root.

We must learn a new way to live as solar beings. There is no time left. The curtain has lifted and the angelic forces of light are servicing the planet with light enforced by the Christ Appearance.

THE PLANETARY COMMISSION

Such sorrow have the humans brought to Earth! How blessed our planet is! How glorious to behold! Now, as the Great Sun fondles her and embraces all life upon her, know, dear ones, that you too are embraced by My love unconditionally.

But you must change your ways to remain on the planet. She will have it no other way.

These are the ways of My World:

1. Practice harmlessness: Deliver no angry word nor thought. Hurt no thing, be it flower or stone or child. Life is God. Do honor to this. Strike no one down, but lift each and everyone up to the Sun. God cells are open to Be.

Hurt no thing in its be-ing, for IAM that.

2. Love unconditionally: No one is here to feed you or save you. Each one is of the light, in God keeping. Not one is above or below another. Each is a qualified Son, a precious ray of the undying Light. *All life* is precious. You own nothing; in this way nothing owns you. You are part of a *dynamic body of Truth* living and loving as I AM.

3. God's world is the Presence: Your conscious awareness benefits the whole. You are a conductor of energy that dissolves the differences that fear has made. Know the Presence alive in every atom and molecule. Divide not but enter the Christ whole. God's world is now.

4. Speak out: Where there is forgetfulness, injustice, and harmful actions on the part of another. Call attention to these things. You are not only saving lives and helping your planet but you are also assisting those individuals to ascend into the New World. Be about the Father's business.

continued from page 3

5. Finally I would say to you: Forgive and let go. Hold no one to the baser life. See the goodness and the God Presence within every human being, within every life cell, within all God's creation. And go forward as a *conscious unit* of Resurrection.

6. We are the Earth: We are the planet, we are the creation. The Life Energy that is pouring into the planet is for you also, as you take your place in love and light with the Planetary Intelligence. Live now from the center of your heart joyously and all life will live joyously with you! We have begun a new era. The planet has graduated into the Sun.

This issuance from our Planetary Commission will be posted in every school, business and organization. Truth will emerge as your system of government, and all shall be well again on Planet Earth. She will be at peace and her children will be light, fathered by the Infinite Sun.

THE SPIRALING ENERGY FIELD I AM

The Planet does not want you if you cannot behave. Listen to the CHRIST VOICE and follow That. Betrothed to the Light, be one with It. Walk as Presence of God and join with your neighbors: animal, mineral, plant, *all*, in the community of One. Take not

one thought of harm into your system. Serve no other but the Living Truth. Break through the lethargic state of self-centeredness and selfish pleasures. Be clothed in the Spirit of Oneness *where not one blessed creature is harmed*. Take a stand and deliver up my creation. For the time has come to rise into Sun consciousness.

- You have a Voice that can be heard. Be not fearful about this. Be courageous in the Spirit of God in you. Drink of the Living Water and deny not My Presence in anything. I have come to be recognized and honored in all life. I AM the One sent.

- Eat now the fruits of the field. You are to remember My words to you from the Beginning and reseed the Earth with love. This is your mission. Be about the Father's business.

- This Spiral I have sent of Me is My Word. I have given It to Earth that she too might stand in revelation as God's Sun.

- Rise with Earth in her contemplation of a New Life. Be not forgetful but in remembrance. I have remembered you.

- Lift your face to the Incoming Sun. And join with others like yourself in the rhythm of a

new life, loving all life the same. Meet the Solar Flame in yourself.

- This *Spiraling Force Field* I have sent of Me is the rhythm of My Word. It is much like a tornado remolding not only the Earth but all who choose to remain with her.
- Be conscious of this new rhythm for it is with you. And is acting as a whirling vibration catapulting all creation on Earth into the Son of God, the Melchizedek Word: the vital Sun Consciousness.

LIVE FROM THE CENTER

A gate has opened. We are in the midst of a SHIFT. This shift is Earth's shift into a higher dimension. She will take all her beloved creatures and creation with her as she shifts. We, as humans, are generously invited into a New World *already conceived by Mother Earth*. It is a wonder-filled world, she tells us, of kindness and unity with all life. A world of compassion and ever-present companionship. Never will we be alone. All expressions of life will be with us: angelic, animal, bird, fish, river, wind, stone. *We will network*.

We will all walk together in a place of fruitfulness. The false

The Love Of The Mother

The University Papers Volume 70, #138

There is a need to emphasize how God provides for all His-Her Life expressions through Himself. We have little to no understanding of this as humanity.

Because God is love He must provide without conditions. Only you can stop the flow of constant supply as it is the desire of God (Truth) to fulfill Himself as you. His abundant nature is delivered to Himself in His creation. It is the way of the present world to reject this positive alignment. This in turn causes immense suffering.

There is no karma in God's love. It is an unconditional love without cause or effect. *It knows only Itself.* As you can realize and attune to this dimension of reality, all things come together for good. There is no thought error; for is not God in His-Her perfect love all that is?

It is the Lord's will that you prosper *in Him*. For this you have come.

The ruling Hierarchy has inserted karmic law only to teach humanity the results of their own actions. (There is no karmic law in Me.) However, A NEW LAW IS BEING PUT INTO PLACE. It is the Mother's love for all Her creation. Be apprised of this as it has begun its divine expression on earth.

We are loved increasingly as the vibrant energy of light we truly are. We are loved by the Mother of all creation and, knowing this, receive what is given for the time is short.

The Truth About "Free Will"

Humanity has the power of choice. You can believe or you can disbelieve. It is your choice. What you choose becomes your way of life. You are the creator of your own destiny.

Free will allows you to consciously realize the Christ Truth and its expression as your life. Free will

releases you from dogma, ancient rituals, bondage and prisons of the human mind. It allows you to accept the reality of Light and Love as your world. It is a consciousness acceptance that must be made. Jesus asked his disciples, "Are you for me or are you against me?" There is no compromise in choice. You are entirely responsible for the choices you make.

Free will equals what you accept. It is the basic freedom to choose the spiritual identity and the world of light or the illusions of mortality and ego-driven mania.

Your happiness depends on your choices, doesn't it? If you choose to be with the light (All-Consciousness God), you will feel fulfilled and find peace in the harmonic experience of Christ unity. *We were created to be responsible, to decide, to walk with God.*

The Coming of the Mother into the fields of expression releases old, false and harmful patterns and collects the children of God into a loving nest of forgiveness.

As much as you may wish to find a God of punishment, a God of suffering, *the Mother will no longer permit that expression to be worshipped.* She reflects back to you unconditional, nonjudgmental love. Pure love in the golden sphere of Sananda.

And if there is anger in you, let it go. For nowhere can you find greater love than in God's Word.

He who would seek Me will find Me as love.

Love itself will clear the Earth of illusion; it will cleanse the Earth and heal her; it will

embody My flesh and My bones; it will vibrate My sound.

God is love and that love will now be felt as a total immersion of the Mother Divine.

Sananda's Decree

Cleave not to the old. I have delivered up My Proclamation into the circuits.

Vibrating now only love - the full circuitry of love: the Mother Christ - the Earth shall be lifted and the shadows fall away. I AM releasing now the processing of all negativity by love. All thoughts and false patterns of limitation, poverty, disease, death and the hypocrisy of a punishing God and an exclusive God will no longer be tolerated.

A new generation is born of love. For the time has come to feather my nest that the Christ might be born in all hearts, and love be recognized as God Himself. You will destroy the Earth without love. Therefore, I bring you love.

Peace And The Planetary Prince

April 1, 1999

Let's be at peace within ourselves. And when we find this peace, this nectar of the gods, this grace of love, let us send it forth into the tormented lands of this Earth. Let us give the peace that passes all understanding to them. Let us know the peace as the truth of life, the heart of God. Let us be that peace and walk in it

The Love Of The Mother

and govern through it. Find your peace and send it forth in the name of Sananda. It is love.

Begin, begin to see the peace covering the Earth. A quiet peace, a silent peace, a Mother's peace for her only child. Let the peace of God's world be upon this Earth. *The peace of God remembered.* Let the solar mission of the Divine Mother begin and great light pour upon this planet, that all her cells are touched with this light. Let the vibration of this peace and light be cleansing Mother Earth, soothing and whispering of the love that we all have for her. Let the gratitude of our hearts be felt, and let it be given through our Holy Mother to this Earth. Let her know how grateful we are, how appreciative for the gifts that she has given us—bestowed upon us. And realizing all is one in our Creator, let us bless this Earth with the Mother's love.

A Christed planet rise! *Be ye resurrected, oh my planet Earth, into the light of Sananda, your Planetary Prince.* Behold the light, the quiet peace, the joy of a new summer be envisioned by us all. And let us know this peace within us. Each heart must feel this peace and live in it, that we not disturb our Earth in her own rebirth into new life. Let us carry our peace, attend to it and realize it in all ways that we might be a brother, sister *to every living thing*, all life intended. Let us not forget this peace, the quiet heart, that we might be no longer a burden upon this earth but a great gift of Sunship. Let us serve our Father well as sons of God and pour our peace with Mother to all living things, all life, all creatures great and small - that all might feel our peace: the quiet heart, the peace of God, and the joy of Christ. Let us draw together now as a peaceful planet and not disturb the vibrations that are growing ever stronger in this second coming.

The Mother's blessing is upon this planet. *She blesses all life.*¹ She gives her love. This is a planet of peace, she says, and one with the

continued from page 5

Father's plan. Let us nourish this thought of the Divine Mother and carry it in our hearts to unleash the peace through us into all parts of this globe. And to the four directions, let us say *peace*. If you will be at peace, all life will be at peace with you.

I AM the resurrection and the life and I send My peace into the lands of Mother Earth, into the hearts of all children, into the hearts of the many. Be still and know that I AM God and so let there be peace on earth. When you are at peace, my brothers and sisters, all life is at peace with you. Release this peace to planet Earth. God's peace, be.

And still there is peace...

Perhaps one of the reasons we speak of this peace that passes all understanding is because, in many cases, it doesn't seem as though there's any reason for peace. The appearance may not look peaceful and you may not be getting what you want: the job that you think will make you happy, the money that you would like to feel comfortable in the bank. But still, there is this peace. You may not know where you're going to live from moment to moment. How you're going to survive from moment to moment according to man's world and his rules. *And still there is this peace.* It confounds the mind of man, the mortal mind, *because it's the presence of God.*

We are asked to stay in that secret garden, that place of peace, *under all circumstances to be that peace.* This will have a tremendous influence on the people that we meet, on the animals that we greet, and on the current events of our times. What we're saying in this peace that passes all understanding - this quiet heart - is: *I know I am the resurrection and the life. I know that there is one power and one presence. I know I am with Christ and*

all is well. And we walk this way and we talk this way and we live this way. And so peace grows from us and shines through us and catches fire in all man's hearts. We must come to this place *now*, not tomorrow, where not one thing ruffles us or disturbs us!

Sister Thedra would say, "No one shall take my peace from me." I used to listen to her say that and I thought, no, that's right, sister, no one is going to take your peace from you. Because when you stand in that peace you are a man, a woman of the hour. You are a true Christ initiate and man will feel it. To send an angry diplomat into a world of war is fruitless. But if there's no war in you, we will see peace on earth.

So carry this peace with you like a command in your center. Be vigilant in this peace. Speak not, unless you carry this peace and your tongue will serve the Lord. Sananda has always asked and expected a great deal, hasn't he? *Love them as I have loved you. Be the peace that passes all understanding. Be the quiet heart and so bring peace to earth as the guardian angels you are.* What a difference this will make! *Are you sons of Me? I want oceans of peace distributed through your heart.*

Be peace. Go forth and be peace. Love them as I have loved you. In Me you will find peace. Nowhere else. Heed My call. And again the call is to be fishers of men. The turmoil of the world need not touch you if you carry My peace within. The sanctuary is within and My covenant is with you.

almighty Sun of God, for this is your true Self.

Let your Sun rise into your throat and speak the Word of intelligence that all might feel and know the Light.

Let the graduation begin as we, now, riding the Bark of the Sun, descend into the very core of planet Earth to feel her presence, to become one with her *as a stabilized unit of our Lord*. Let the light bring us to the place where God is One in the core of Mother Earth. Now descend with Me as rapidly as possible to stand with her. Hear her heartbeat. Feel her pulsating through with your feet upon the earth. Hear her voice as she truly wakes up at this dawn of a new day. *This is the resurrection. Planet Earth, awaken and be with Me.*

I see her now with you, opening closed eyes slowly, as though she has been asleep for a very long time. I tell you to listen that you might hear her voice. Slowly, gracefully and with dignity, our lady of the Earth begins to awaken and lo what do I see now?

First I see the children, little children, playing in her heartbeat, rising with her Sun. And look, I see the rabbits. They're right there with the children in that circle of the light. And look again. Is that a wolf? I think it is so, a baby wolf, for everything is young, new growing in the light. And the very breath of Mother breathing upon her children. Oh she loves them so! Look, that's a little twig. No it's not. It's a tiny, tiny evergreen. Wow! And as our Mother Earth heaves, awakens, breathes, her very breath is like a cradle for all the young ones. Listen to her voice now. *It is the resurrection.* And all the plants, grasses, rivers, the bays, oceans, winds, everything that is our Mother, part of her, breathes new breath of this, the resurrection.

But yes, we still abide with her. The very core of her being, feel the warmth, fire. That's her heart. That's her very life-center we have been taken to. "Now drop your bodies mortal," she says, "for this is something very special you

continued from page 6

would see." Yea, who sits upon this throne? Right there at the core of planet Earth, a golden throne it is. Is it not our Planetary Logos? Yes. Wait. He has a scroll. It's all rolled up in His hand. It's Mother Earth's scroll, isn't it? Read it now. He says, "I appoint you, brothers and sisters of the light to guard this Earth. Realize this. Walk with her. Resist not her cold, her winds, her light. *Walk with her.* As a planetary body abide and care for her."

Oh His voice is very deep, isn't it? So strong with such great authority, he pours upon us. His golden body reaches out and gives us greater strength to do what we must do in centering ourselves as the light of the world. But let us put our eyes once again upon the waking Earth. We are still there, are we not, in the very core of Mother Earth? Her eyes, they are wide now, aren't they? And you know what, I do believe that many children were brought to her to make her happy once again. All the little ones, they all have been with her as she slowly awakens to the new Earth, her new body, *resurrection*. It took the children, didn't it, to help her through this veil? Why not appoint the children to carry this a bit further so that she feels and knows her very pulse beat is a part of them. Give the children long rein on this. They speak for Mother. She will be at rest with them.

Breathe with her as you did once before. Her cold becomes your cold, her light your light. The warmth of her lamp becomes the warmth of your soul. "You will never go hungry," she says. "Walk with me." Now, do you feel a slight trembling upon the ground? Do you see the light of Mother's awakening forging through the earth, the ground upon which you stand, the grass, the sand of the beaches, everywhere light? Why

suddenly do I see the dolphins dance, somersaulting in the air? Never have they been so playful and so glad.

What is this that I am partaking of but the joyous renewal of the Mother. The planet is awakening to new song in her. "Do not go back to your old ways," she says. Pull down the Sun, the new dawning, into your heart. Let it rest there for a moment and then burst forth as the Sun with a great and joyous song I AM! Listen to the light. Walk with the God within and all will be well with you, *for the planet has awakened.*

She shakes herself clear of thought forms that have stood in her way of being glad, happy and joyous, playful with her children. We welcome planet Earth into our solar system of government. We send new angels to our planet that have been trained and prepared in the solar schools of light. We are now *conscious* of Earth's magic and wish her well. We reach out as brothers and sisters from the planets of this system to say welcome, Mother Earth, Gaia, welcome! And as you join with us, with the light councils of this solar system and beyond, Sananda welcomes you also.

The Planetary Logos says, "Well done, my people, well done. We are one system now. We are one if you think moment by moment that this is the resurrection, a new dawning, that you have a sister proclaiming herself through your heart and mind, planet Earth." When you put on your clothes of protection, remember she will protect you. You are guardian angels now and have no need of these clothes for I AM with you, saith the Lord. And surely, she is a part of your soul.

Creation of The New Circuitry

The Primary Gate

**I find Myself in you and draw you up into Me.
I collect My own. The “fall of man” is not known to Me
for I have not fallen nor have you.**

Excerpted from The *GodSelf*, page 20, verse 7.

Released energy of My Being reaches to the soul that I, Myself, might become the soul of you. I AM destined to be the functioning spirit of yourself, the divine you. When this happens all is embodied as one. There is no separation nor can there be.

At the moment of REBIRTH in you I AM alerted. A signal, a flash of fire, goes out into the Universe I AM. I cannot answer UNTIL THE REBIRTH OCCURS - thus sealing you off from all but That which is becoming.

I hold you in My radiation of fiery love to re-qualify Myself in you as the Son or CHRIST CONSCIOUSNESS. This is My desire: to become who you are.

Therefore, the moment you are realized in Me (rebirth), I begin My descent into your energy field where I begin transforming every particle into My reality of GodSelf.

My World Of Eternal One

The Science of Being

The natural laws of My rhythm will become a part of your life. We will act as one being. You can do that which I AM doing without hesitation. There is no thought other than My thought. We are truly bonded in a fulfilled Creative Power of My Daughter's Breath. The Daughter is the Key to your new life - and is that not wonderful that you have become what you are?

Please, now, refer to the selection from above *The GodSelf*. Read carefully the sacred

passage, for it contains within its word arrangement the gate or *access point* of the new consciousness.

I find Myself in you and draw you up into Me. I collect My own. Suddenly, without warning, the energy field of the God Center knows you! In this energy awakening, a spiraling dimension of reality seeks its own. What has been a part *from* Me now becomes a *part of* Me. The tremendous force and desire of your Higher Self purges everything in its wake, as It spirals with great velocity into your energy vortex (your “self”) to transform every atom, molecule and particle.

The Mighty I AM Presence is an enormous energy field of God potential, seeking its likeness that It might complete Itself as Its own creation.

Once you begin to awaken to your divine field of Intelligence - the Christ within - this Energy Consciousness, I speak of, is alerted. This system of contact with *intelligent energy* is ignited and vibrates Its intent: to descend into your atomic energy field - your conscious awareness - and interpenetrate your thinking, breathing, physical patterns. This interpenetrating of Intelligence energy, initiated directly from the Christ field or dimension, is now taking place throughout the planet.

The path of the descending God Intelligence as radiant Energy of Light and Love *is through kundalini*.

Breaking the threads of the Sleeping Giant, the determined God Presence as *intelligent energy* embodies Itself within kundalini. It becomes kundalini itself. Now the movement begins. The Serpent begins to rise. The sweeping, cleansing and purifying God Presence as kundalini breaks the seals that have divided Man from his/her Godhood. *My intention is to release the God in you to live as you.*

Each chakra or center is vitalized by the Presence of Creative Intelligence. Each chakra is opened to itself that it may reveal the talents/gifts kept secret for so long. With each opening comes greater responsibility for the individual who is awakening to power. In this deepening process, what the individual must realize is that the power belongs to the Spiritual Man, the Spiritual *Consciousness*, and cannot be used for selfish means. An ultimate test for anyone who takes this path to the spheres of light!

As the GodSelf emerges through this

continued on page 9

The Lost Is Found

transformation, the Melchizedek offspring of the Father within becomes the new Messiah, the consciousness of Christ. Then Man and God are one (both in energy and in body). You cannot imagine the joy in the heavens when this happens!

Man lives in love as a portion of the First Born: a Creator Man of power thrusting himself into the solar system, further into the regions of the Spirit to continue the journey of light to the furthestmost realms of the Father within.

Abundant Life

When you return everything to God, the abundant Life that is God shines forth. But if you keep and try to possess even a small part of that which you call your life, you will be cheating yourself.

What you possess and hold onto can only out-picturize in a limited, mortal expression. However, what you give to God, be it your family, your husband, wife, bank account, body, mind, will express as the kingdom of God!

Learn to surrender everything into the Spirit of God, that the Spirit may expand on your vision, make true your hopes, dissolve the difficulty, amass your fortune, heal your disagreements. There is a never-ending blessing for you in God.

You are a unit of My perfection. When you

continued from page 8

surrender to God, it is the God presence within you that answers. All that I have is yours in Me.

A Remembrance

(The University Papers number 85, pages 5-6)

I want to again remind you that none of you are who you think you are. You have come from other star systems and other places of light to harmonize this planet and to help her to ascend into a whole new system of Be-ing.¹ What you bring, as you begin to open and remember, is the consciousness of the star systems from whence you came. You bring to planet Earth the conscious awareness of who you are. And these things that you remember, these divine flames of being, these vibrations of wholistic energy pure and sweet to our Earth, these laws of *living* will be a part of a weaving of a whole new system of government. A whole new way. Your conscious accord with this way will solidify it and anchor it.

Please do not remain in the density of the third dimension. *You are needed elsewhere!* Be clothed with light now and universal love. And remember that you have come from other galaxies without shame.

You are bound no longer. We have been through this before. You are children of *the new life*. You have come to do a work for the Priesthood of Melchizedek and this work is without division.

You are here to be agents of the Light, to

agree with the Love that is entering your system and to align with It. Essentially, you were brought here to raise the planet.

You are here as stations of light to receive this Incoming Love Degree through your being, through your star system. Because you already know My Love for you, you will not oppose it. You will accept it, and that is why you are here. You will be My receptacles of Divine Love, My love for all creation.

It (this Love, Solar Love) is impersonal in its containment in you. So you will allow it to pass through your cells to reprogram your whole vibratory system and raise you up that others can see and benefit from this upliftment.

Love is, and it is being unleashed at a tremendous rate on our planet Earth. You are here because you, in your awakening and in your agreeing, will be receptive. You will allow yourself to move through the spiraling re-creation process that is taking place.² In doing this, you lift others.

The Coming Of The Fire Dome

(continued, page 6)

Residing in "outer space" is a radiation, a field of energy or conscious fire, that when lowered and allowed to penetrate will consume the Earth as we have known it. This penetration by a dome of fire is to be extended over the human also that the dense radiation of humanhood be removed forevermore.

Here, man, is My love. God stands with you in this hour.

¹The Breath takes it, that is what is going to happen. The full Vibration of The Christ (known as the Entrance of The Christ) carrying Itself through all life will stir the trees as well as the human heart. This is the presence of The Master in Creative Energy flowing to you and to me. We are the consciousness to perceive this at this time. Through our perception will come a new world of vibratory form, a world of light and song.

²Your atomic field is changing.

The Intent, The Will of the Millennium

The Coming of God in Man³

Truth circuits entering our planet and rooting themselves in the fertile ground of the Anointed is the consciousness of the New Millennium. The message for all is to unite with the GodSelf and release the mortal world. For that world is dissolving and the ways (laws) of that world are no longer valid. We are in the world of light and the contact at all times must be there. See that you are aligned with the God Consciousness you are.

The powerful Ray of Intelligence known as the Mother Ray⁴ is helping you to ascend. Let "your" world go as I AM becomes the central vibration of your mind.

Carry God in your body now.

Walk with God.

Consider God in all your life actions.

Listen to God's Voice and follow its direction.

Breathe the Breath.

Stand with God in all ways.

As you do these things, you *are* God.

And I embrace you as the GodSelf.

The following message was transcribed from the Spirit

On March 21, 1999, 4:00 pm, Tucson, Arizona

Be a beacon of light. Dwell not on the unreal for it is not lasting. Dwell on the I AM presence as your Self, for this is lasting and shall ever be.

Look not in your notebook for thoughts but look to the Mind of God. I have some new thoughts to give to you that go against the grain of that which you have regarded as law and as truth. Be ever attentive to My Word.

And now, the third dimension will shatter to a thousand pieces of glass and stone. Do not try to piece together that which has been shattered. I would have you take up the new world in Me.

You are not alone. I AM with you. And you cannot fail nor can you fall, unless you look back or down. Never do this. I have shattered that which you would wish to have.

Have Me and not the world of mortal making. Have Me that I might release you into the light of God.

You are not alone, though your world, as you have known it, is no longer valid. It is gone. I AM the world you seek. I AM the only world available to you now. Place your hand in Mine. We take the first steps together, into a world of light where I AM Solar Son.

My peace is with you. And I speak as One who knows. I AM Sananda. My Word remains with you. Selah.

THE BODY IMMORTAL (CD format)

A meditation with Babaji. "Let us release now the mortal form that you might experience yourself the glorious form I AM. Let Me take form in you. Release and let go, that your molecules may dance and be free...Deliver yourself into the higher spheres of light. And wake up your centers to their full capacity. Centers that you didn't even know you had." 60 min.

RESURRECTION

continued from page 4

gospel taught in churches, homes and schools will dissolve: the lie that tells us everything lives—all God's creation—lives for human consumption and pleasure.

Is it any wonder human beings have felt loneliness, have cried out for a friend? Is it any wonder human beings have been anxious and afraid and have set gold up as their insurance against this fear?

Our good medicine walks with us as the storm abates: the lion sits with the lamb—always has, always will. What is the medicine I speak of? It is wolf, tiger, pure river, every rock and stone in its rightful place at peace in the body of God.

We are in the midst of Resurrection. The bend in the river has been met. You can hear the Song of Resurrection if you listen. That Song is sung by the animals right now...the birds. All nature sings. It is a song of *joining*. And you, too, can sing and step into the Circle of Life and come home to love.

THE CHRISTVOICE

What has been termed by this University as the Inner Voice is recognized now as the ChristVoice. In other words, the term Inner Voice has been changed by the Cosmic Hierarchy to signify the evolutionary change.

The ChristVoice is the parent Flame within the heart of man. It is the Authority without measure. And it is the governance of not only this planet but the Universe.

We are delighted to announce through the Mother Office that the Christ Voice has been solidified and stabilized on the planet. It is the Creative Power (Divine Daughter or Mother Spirit) that runs through this ChristVoice and reveals the word made manifest. This ChristVoice is the Office of The Christ.

The Love Of The Mother

continued from page 7

Walk carefully upon the planet Earth and discard your clothing now. That which is given is a shield of light much like the planet's new body. Be aware, and never speak a word that can harm the Mother in any way. Walk carefully in the planet, on the planet and you will have a good friend, I promise you this. You will have a friend indeed. How does she care for me, you say? If need be, a raven will bring you the food that you need. If need be, a lion's roar will give you comfort in a strange new place. Listen, you have friends everywhere. The valley of darkness is no more. But say upon yourself, I am trusted. I am the light of the world. I am trusted. *She* is the light of the world and I carry her brightly in my heart: a star of a new universe, a Christos in the solar system. "Abide with me," she says, "and I will love you deeply and I will care for you, even as you do care for my children of the earth."

The planet has arisen. It is a new day. For you, too, my people, must know, take this job, this duty seriously, very seriously for I have said my part. Now it is your turn. Be that which you have come to be. And the resurrected Earth will proclaim My Son, My Son, My loving and wondrous Son IAM.

Peace upon you, beloved Earth. I feel the core of your being. I will not forget you. I shall walk with you and lo, I shall be a part of your holy peace, your joy and your sacred Sun. Rise up and be resurrected!

Sananda has now moved into his sacred place as Planetary Prince to rule *as the resurrection*. You, too, are a part of this great mission of love and light. Keep the promise you have made to Mother Earth and walk not in fear but in joy. Surrender your body to the light. Quietly, for there are those who are still sleeping and you would not wish to disturb them, speak the Aum as you stand with Mother Earth in the very core of her being. A U M... Shake off the mortal that you might walk as light. Lift My planet into the Sun that she might be a Sun herself.
