# The Bright and Shining GodSelf

The University Papers Volume 7, #141

*From the Great Sun to the Sun in your heart  
is the divine Breath breathed.  
And the Breath is the Light of the world.*

(from *The GodSelf*, by Patricia Jepsen Chuse, page 276, 63:4)

You are a bright and shining star from the original beginning. Released into matter you must know yourself now as the Light. Be aware that many are in the same assignment and will be going with you into a bright and glorious new world of breathtaking beauty and love.

Be souls of a new resurrection and deliver unto the people that which I have given you to deliver: My wondrous Self. Thus speaks the God in you. And with this, Be about the Father's business of Love Incarnate.

The word "bright new world" is

unknown to some but in the Melchizedek mission, all will understand the world of light forthcoming into conscious awareness as the truth circuit of this universe. *I have come that I might become you. This statement continues to grow - expand - within the souls of this new, fresh world - as a great and shining Sun.*

Let go and let the Father's love cover you now as the incarnated Son arises - fresh and new - as the consciousness of the world of light!

How glorious to behold the light within each and every one of us! How glorious to behold the Great and Mighty Sun!

And now the Son of God (Universe Creator) moves into position to enter Earth as the full Sun of God's world and the Breath of His Being. The world of light is the Son (Sun) of God emerged in the heart of humanity.

\*\*\*\*\*

The heavenly bodies of light that are our cosmic counterparts draw us into themselves as light

increases for our beloved planet.

Your physical immortality will be felt and experienced, as a vital issue of the Cosmic Father-Mother begins to set Itself as a positioning focus for the "Lightworkers" who have been patiently waiting on this moment of light.

The date of August 11th<sup>1</sup> stands out as an electronic date, the opening of a new gate into the threshold of Consciousness that is Unity, Respect for All Life, Oneness where divine love rules. This embodiment of Love, known to esoterics as the Christ dimension, is also the place of supply. Here the Christ lives as Consciousness distributing among Itself all that I AM. To BE in this place of realization is to collect oneself into the light. It is to drop the duality thought forms, to enter into My world of light that holds for itself the Solar Flame.

This is a frequency time that has been held in the consciousness of the Great Ones throughout the ages as a time of Illumination, where darkness will fade away as nothingness in the Creator's Flame of Unity, Oneness and focused Service to the All.

<sup>1</sup>This University Paper was released in 1999. The message is still relevant for this evolving time on the planet.

continued on page 3

# The Bright and Shining GodSelf

Your body will be changing rapidly as you release the negativity of the outer world. Your electronic body of light is formed of My Word - where no dis-ease can enter - and here I stand with you as the Flame.

The Cosmic Breath attends you as a body of awareness caught up in meditation and alertness to the Plan of The Christ. This BODY I speak of is the cosmic Body, consciousness, of all those giving themselves into the New Life or the bright new world. We are one in this Body, vibrating in the likeness of brotherhood-sisterhood, joining together in the Breath, lifting ourselves into greater capacity to serve intelligently on earth as it is in heaven. Be of one Body now in the Breath of the Mother. Let the Solar Flame be light within your own heart as awareness of Service and attunement to those who work with you and share your intuitive goals and visions. Be of one Mind as the vast universe opens to you and you see anew. A fresh new world of light.

...Be prepared in your energy awakening that you might follow the Sun into a new awareness of God The Creator. Behold the light!

My abundance shall shatter the earth by its coming. This is Initiation for all. All will be affected by the inclusion of the light circuits of the inner star systems. These are times of great revelation as tidal waves form of My Breath.

## The Body Immortal

Build your body out of light. I have chosen you to portray the body immortal. The great and powerful love I have for Earth is to be given forth through your alignment with the creative force now extended to Earth by My Name.

*continued from page 2*

In attending to your own Higher Self as a body, you shall fulfill My desire and intent for you: that is to shine forth the immortal body or Great Sun on this planet! Release the flesh now that I might have My way with you as the dance of Life, as Life Eternal. I abide in you as I AM. I AM the power of this new day. Be with Me.

## Star Plan

...Suffice it to say here that the turning point that we have been waiting for on our cosmic calendar is now in progress, where Earth will be swallowed up by the Sun of herself and reemerge much like the fabled Phoenix, "another and the same."

There are a number of books and transcripts well equipped to inform you of the astrological formations and implications of the next few years. What I will remind you of here is to be always in the comfort of the Father, the realm of Being where I AM. The Melchizedek Star shines upon those who stand steadfast in the "kingdom of God," knowing and testifying to the eternal truth of Be-ing. "Rest in Me" are the constant words of the inner Flame. Live by revelation. Moment by moment in the divine Presence of perfect love, unity and peace. Do not abide in the place of duality where dwells the catastrophe of illusion. *Be the God within you, straight and strong, and lo shall you burn with*

*even a greater light than My Son Jesus, born of Me. Say that into the star system and it shall be so.*

## Even As Jesus

Do you recall how Jesus spoke to the storm? The disciples were very concerned because the boat was rocking and the sky was dark - probably lightning was flashing. Yet when the Master Jesus appeared and said "Peace, be still" to the storm, the storm quieted. This is part of our assignment with the natural forces. Like Jesus, we, too, can speak to the appearance of storm, earthquake or tornado. And - here is the key - if we speak with deep regard for the elementals and the nature forces, all will divinely attune and harmony will be restored. Thus - even as Jesus - must you walk.

Yes, we can speak to the wind because we're at one with the storm. We're at one with the wind. It is our Father's love that speaks. *It is a joining in peace and harmony.* It is the place of authority from whence you come, but authority rooted in the embrace and consciousness of oneness. The unity of all life.

It is a oneness with the lightning people. It's a oneness with the thunder beings. It's a oneness with the ocean waves. And we have that. We have the master's

*continued on page 4*

# The Bright and Shining GodSelf

voice. And peace will come. We can subdue and we can speak in a persuasive voice of laughter and play. Let the rains come! but be a gentle rain. That is why I emphasize the sound of the voice right now, so that we watch that human emotions don't split the voice in two. But that we keep that voice absolutely at one with the Father within - so that any time, like Jesus, we can say "Peace, be still," and the storm will be quieted.

We have the Office of the Mother returning to earth. We have the consciousness of the Divine Mother bringing forth Her Solar Child as the Christ. We have that experiential vision that must, in one way or another, disturb the elements and rumple the energy patterns that have been so fixed here upon this planet. If we can look at some of the prophecies that have been given of catastrophic events and see this as a reaction to the incoming Breath and the Station of the Christ, we may well decide to activate our inner Christ to speak those same words, "Peace, be still."

It is up to us, as chohans of the new ray, to gentle these reactions as the Cycle of the Mother enters to establish itself upon this planet as current of the divine.<sup>2</sup> In other words, if we can see things more holistically now - spiritually - I believe each one of us will get a sense of what we are called to do and how we can participate with the Hierarchy in the bright new world.

"Peace, be still." That voice is with you. Just as much with you as it is with the one who spoke those words of fire and love. **My realm is your realm. We are one.** Watch

<sup>2</sup>The establishment of the Christ is always that.

*continued from page 3*

that voice. Care for it. Let it be trained to signal the heavens and answer the call for peace on earth.

Is it any wonder that the elementals would be disturbed now? Of course not. How frightened they must have become by the actions of the mortals. Let us be part of their realm. They wait for the Father's word and that word can only come through you and me. The elementals - all the nature forces - want to hear that word "peace" and want to feel it *e m a n a t i n g a s o u r* consciousness. We have been issued an invitation from the angelic kingdom and from the nature spirits. They want us to be a part of their world so that *together* we can work in partnership for planet Earth. And they assure us if we change some of our ways and attitudes we, together, will bless our planet and ourselves.

## You Are Jesus

You are the hope for My new world. It's not enough to breathe sometimes the life that the Mother has bestowed upon you. It must be constant and ever present in your awareness. When you breathe the first breath given to the Son of God, you are one with that breath and the Christ divinity.

Watch the energy. Be aware of where you are in your consciousness and how your voice melds with Mine, and how you can bring gentle peace into any and every area by the sound. Loving tones of light.

Be there with Me. I have no one else to call upon at this time, save you.

## A Meditation on The Breath

Breathe the Breath of life from the core of your being, the mighty Sun of yourself. Realize that this is the *life essence* of I AM - that you are stepping forth upon this earth for the very first time in the purity state of being.

Take this Breath again from your very core, your true center who you are, divine and beautiful being. Feel the earth underneath your feet and the wonders of the earth you see with the purity of vision, My eyes in you as I AM. Walk upon this earth now in this purity of vision. Ah, but remember, you must remember, to breathe the first Breath, the Breath of life, *from the very core of your being*. Keep on breathing. The moment you stop, you are in illusion. Then you can be drawn down and know not I AM.

You are on this planet to breathe the Breath of life, to walk as purity, to see with My vision the wondrous things there are to see. To relate through your divine heart, the love center of My being. To relate through the love center to all life as you breathe the Breath of life. From the very core of your being, breathe. Now, all that comes to your mind is from divine thought,

*continued on page 5*

# The Bright and Shining GodSelf

the mind of God in its purity; by droplets, comes and fosters new vision and right action. And you breathe from the core of your being, and you walk upon this earth in your purity and in the wonder of this life essence.

Desire not, for AM I not all? In the core of your being, you know this, have this and are this. I AM ready to show you My wondrous life all around you, but first you must breathe the very essence of My life from the core of your being, the I AM. This is where you receive the Breath, the sustenance that gives you the eternity that is My whole life in you. This keeps you above the false statements, the misinterpretations. Breathe the life in through your whole being, through your seven bodies, in through your chakras, centers of new life, as cosmic man. Heavenly man, breathe.

Breathe the life force I AM and enjoy life now, every particle of it, atom of it. Breathe with the atom and with the particle new life. We are one, comes the song. Listen well. Enjoy this life I give you as you breathe from the life essence of the very core of your being, as you remember I have given you *My first Breath* to walk this plane of earth. To touch all the things that I have created in My perfect state of being, that you might enjoy this life and partake of it from the purity of your vision, from the purity of your mind, from the purity of your heart. Fulfill your mission now as God's daughter, son of a new creation.

Behold, I AM with you as the Mother state of Consciousness. Breathe new life. And remember, in this Breath you are one. You are God's state of Be-ing. You are the light and

*continued from page 4*

you are the sun. Let us now breathe together and remember that God has given us this Breath that we might walk this earth in purity, oh wondrous Suns of God! That we might live this life in joy, in humbleness, in creativeness, always as we breathe the GodSelf, the glorious life essence I AM.

Stay in the pure state of being by My Breath. I will glorify My body. I will lift you as you breathe to see, to know and to receive My heart as your heart. There is no other. Realize that in this Breath I give you, new life, you restore your bodies to the equilibrium that matches My own. We walk together, you and I, as one being in the blessed remembrance of the divine Breath, the life essence of God in you *as you breathe*. Let God express. Vibrating through you now is the holy Breath of the Mother. Breathe the immaculate conception and live as the light of this earth, walking as I AM in the holy Breath. Ever functioning there, as you recall the first Breath you took upon entering this earth. *It was My Breath*. Lest you forget, I remind you. You must breathe the life force, the holy Breath that God has given you, that you might have life and have life eternal in the joy of living and in the Christ presence of I AM.

*Wait no longer. I come. Believe in your holiness, for this is the way I shall come. I must enter your heart and mind by My Breath and release*

*Myself through you into all life circuits on earth. Let your attention be on the divine. Let your knowledge be and your acceptance be that you are holy. Let Me come through you now as the grace of God, heavenly spark on earth. Blessed be the ones who answer My call, who breathe My Breath. Breathe now the Breath. Not any other Breath have you, save Mine. And love your nature: you are the Sun.*

## Seeds of Thought

I AM the vehicle for the Divine Mother to flow through. I breathe and I release the divine.

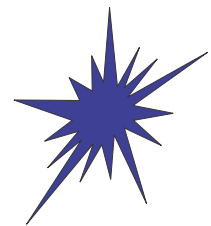

I AM the Sun in My breath. I AM the perfection of God in expression now.

I AM the revelation of divine being harvesting Myself on earth.

I relate to every particle and atom. I relate to all life expression, dancing energy in the sun.

I AM Breath itself as I breathe. I AM the life of God. I AM the Sun.

And in my Breath, I know I AM.

# The Healing Heart

## The University Papers #128

### Your Life Support System

The first and foremost position for all spiritual doctrine must be the place of the heart. Entering through the heart center or chakra enables the seeker or initiate to *know* and in the knowing comes the greatest of all gifts: the Christ.

The Solar Man is the Christed initiate. He/she is the One who has been sent to enable the Earth to rise like a queen of the cosmos. To shelter the Christ is your spiritual and soul mission. It is the purpose for your incarnation upon this planet at this time.

To be That which is called the Christ is to be loving. And as you can love without possession and without conditions placed on your loving and without judgment as to who you should love, you shine into creation a new foundation of God's divine body: the Supreme.

God The Supreme is the wholeness and the unity of all that is. It is the presence of God/Truth through everything and in all life.

### The Solar Ray

The presence of this Ray through all life is changing all life. It is transforming the full network of this Earth's body and *will complement*.<sup>1</sup>

<sup>1</sup> The Earth's *will complement* is in position now to energize the body of Earth into a new position as a planet in the greater Solar Light. This solar will complementary energy field is known as *The Great Angel of the Cosmos*. It is this Angel who will lend a hand in Earth's transition and frequency change.

<sup>2</sup> The Shekinah Light Intelligence fortifies and decrees (releases) The Presence of The Daughter into the ley lines of Mother Earth where She will be heard and felt as the invisible Universe and cosmic Intent. She will release a Document that must be obeyed. By this release the world will change. Coordinated Spirit Intent is carried by The Daughter as Universe Mother Spirit/Holy Spirit.

<sup>3</sup> My emphasis - C.

It is the transformation of this Earth's body that is also realigning into the Christ body, or Universe network, all life intended. You must now prepare yourselves for an automatic change, an alteration in your present physical and etheric bodies so as to bring in greater intensity of Spirit. The Shekinah will shine; the Shekinah will be.<sup>2</sup>

Into the Melchizedek Energy Field will vibrate the Solar Ray of the Lord.

This will facilitate the Christ Action on the planet and unify heads and hearts into one glorious revelation of oneness.

### The Healing Heart

Once the heart as the center of your universe (consciousness and body) is opened, you have the ability to heal and to resurrect. The heart, as it is open and free to radiate forth the Light and the love of God, *is the key to restoring your body to physical and spiritual perfection*.

Listen to the words of the Christ (your God center) as He/She speaks about love. These words quoted are found throughout the ages in the many

cultures and religious writings. Hear God (your true Self) as He/She speaks the Way and the Path to Resurrection and Enlightenment.

- And you shall love the Lord your God with all your *heart*<sup>3</sup> and with all your soul and with all your might. (Deut. 6:5)
- Honor your father and your mother; and, Love your neighbor as yourself. (Mat. 19:19)
- But I say to you who hear, Love your enemies and do good to those who hate you... (Luke 6:27)
- ...God is love; and he who dwells in love abides in God. (1 John 4:16)
- There is no fear in love; but perfect love casts out fear, because fear is tormenting. He who fears is not made perfect in love. (1 John 4:18)
- If a man says, I love God, and yet hates his brother, he is a liar; for he who does not love his brother whom he has seen, how can he love God whom he has not seen? (1 John 4:20)
- A new commandment I give you, that you love one another; just as I have loved you, that you also love one another. (John 13:34)

(These quotations are from the Holy Bible, From the Ancient Eastern Text, George M. Lamsa's translation.)

*continued on page 7*

# The Healing Heart

continued from page 6

## Love is the fulfiller....

The purpose of Love is to unite all Life in the Creative Power. As you love unconditionally, asking nothing for yourself but to *be* this love, you are requalifying creation with the Father.

***As you learn to love in this way, your heart center or heart chakra will vitalize and bring new life to the body and the mind. You will be requalified in My Spirit as a Son/Sun of God who is dwelling upon this Earth to heal, to resurrect and to Be. He/she who is not given to these words cannot find his/her heart. - Sananda'***

In your own practice of heart-opening, be alert to when and where you defend yourself, in what manner you defend yourself and for what reason. Then lay aside this defense and go to the heart where no defense is necessary. *I AM all in the heart.* Once the heart is stimulated to love unconditionally, you are a master.

Be alert to when and where you find yourself closing your heart. For there is the place *to open wide.* All discomfort, disease and even the death code is related to the heart center. If you can open your heart like the Sun, the Christ as wondrous love can heal all infirmities. The healing Jesus represents your healing heart: the Christ.

All healing is directly related to your heart chakra. Stay open that I (I AM) can love through you. Wish everyone love. Be love yourself.

Glorify the Father in you by love. Know you not that if you love as God loves, I AM? Accept right now the Presence of the Christ within your heart. Allow love to be released to all in your past and present thoughts. And seek love only in your life. Remember, love heals where hate and bitterness do not. God's Sun wants to love in and through you as the mighty Solar Ray of the Christ. Receive this love and let this love rebuild your body temple.

## Words Of Love

- \* Hunger not for love, for love has already been given you. AM I not love?
- \* Love yourself first before you love Me. For how can you know Me if you do not know yourself? I AM.
- \* The love of God transfigures and transforms.
- \* The greatest act of man is to love, all else being less than that.
- \* He who dwells in love, dwells in Me.
- \* Dwell in love, My sons and daughters; for I have made Myself a part of you.

<sup>4</sup> Sananda is the ascended name (nature) of Jesus.

# The Hour Has Come

The University Papers Volume 8, #12

## The Shift and the Solidifying of the New World

Why doesn't this work for me? I have always been able to manifest my needs. What is happening that I can't use the laws of creation for my earthly good, prosperity and success?

Entertain this thought: *Everything has changed. Nothing is as it was.* From this moment on you must consider the new dimension as your home. With this realization and ACCEPTANCE, fertile ground will be placed beneath your feet and the ways of the New World will be known. This is the Christ dimension where man and God are one; and in this oneness, consideration for the oneness of all life is mandatory. You cannot kill here. You cannot hurt another. Everything is closer and all vibrates in oneness and in harmony with God's will for Earth and her beloved creations. In this new reality that is taking hold on earth, consciousness is in expression and the circuits are energized by the new system of Christ Consciousness - the interconnectedness of all creation and the embodiment of the Circle of Life. In our wholeness we find our answers to the questions above, and we are enabled in the power of LOVE to vibrate God's Plan and the Word "I AM." The circulatory system of the planet has changed. The whole system of governance has changed. And in breathing, one breathes the nectar of the gods and goddesses. You are free at last.

*But if you hang on to the world, as it was before it crumbled into dust, you will feed not on My substance but on the debris of a lost world! Not because I AM an angry God, but because I AM God.*

*You have become a citizen of the Universe, a person of the Solar Realm, a vibration of the Christ Body of Light. Have the power back that I have given you from the*

*beginning. And oneness will be your life after the order of Melchizedek*

## The New Dimension

The Solar Realm and Fifth Dimension is a realm of BEING. Consider, if you will, that you have been living in a world that is out of the circuit of the Universe Father. The ways of your world - the consciousness that granted separateness from the Christ Circle of Life and was not responsive to the ways of unity and interconnectedness - have nearly destroyed you. If it were not for the death program that was inserted following the "fall of man," your soul might have been lost. But inserted now into the records of humanity is the Life of Christ brought to bear on man's soul by the one you know as Jesus of Nazareth. He inserted the new race of man, or humanity, that will be understood as the Sons of God or Deathless Race. This etheric energy field has been expanded since the time of Jesus to include and enclose all of humanity and all of this Earth. We are now enveloped in what the Christian prophets have rightfully named "The Rapture" - the lifting out of the manure pile of old world living, where suffering, illness and even death waited eagerly for each human being. Now the claws of death have been diminished and the ways of the Spirit are becoming known through the emergence of ancient schools of divine wisdom and the entrance of the Universe Creator through His Melchizedek Sons. A new day has come! The ways of man are, indeed, blocked and stopped from causing disorder to the New World radiation as it becomes solidified and anchored on Earth. Now comes the Light.

Listen to the Creator's sound and hear His orchestration of perfect harmony entering your planet Earth and into the vortexes of her new name. Be witnesses

to a New World and waste no time on looking back. For that backward glance might well cost you to slip from the sacred dance! Where you might be tempted to look back into your past, both wistfully and with attachment, please be aware THERE IS NO SUCH PLACE. Only the Light knows itself now and the radiation of the Christ Body or Solar Field of God's Oneness. In looking back into an old and dying order, you will be seeing - and most startlingly so - a dark and empty void, where illusion once was maintained and now has no life. There is nothing. All is dark and empty. Of no value.

## The Mother's Gate Is Open

Experiencing the open portal into the Mother's Realm of creation is a determining factor in the New Earth dimension and the boundaries we now have as part of a celestial field, which acts as a temple for the breath and the sound of our beloved Universe Creator. He, who was on this Earth and loved her, rewards her with His company and the SOUND OF HIS VOICE. He, who has breathed upon this Earth and walked as a human upon her mountains and valleys, bequeaths to her a place *with Him*, a place of glory and vital Spirit.

Just as Jesus, divine blueprint, was born on Earth through Mary, so now is the glory of God The Son unleashed to Earth; and from this point on SHE SHALL BE KNOWN AS THE TEMPLE OF CHRIST MICHAEL. A signet ring shall be placed on her heart and a kiss upon her brow. The lights will begin to

*continued on page 9*

# The Hour Has Come

*continued from page 8*

flicker and glow with anticipation of the new dispensation and the Solar union of every man, woman and child on Earth with The Planetary Son.

The Mother's Gate, now opened, permits the solidifying of the Garden of Eden on Earth and the New World circuits of the Christ Body or dimension, as I AM THAT I AM.

## What Happens Now?

The rhythm of the Earth is changing. She is not under the same frequency laws as previously. Angels surround her and beam her their light and consciousness. Her creative forces remember the Mother and have been called to Her side, as a frequency of unity and oneness with all life registers as the new dimension. Thus, there must be one Voice for a dimension of unity and Christ awareness. There is no Voice other than the one Voice, which is the Cosmic Creator, Unified Sound. In this rhythm answers will come, angels will serve you, and the ways of the higher dimension will be consciously revealed. What worked, as a metaphysical principle in "your" life, is not vibrationally in harmony with the New World, consciousness ascended. This New World, vibrating as life itself, receives from the consciousness of *All Is One* - the I AM Presence - as the body of the new dimension. Always seek the oneness of God's Presence and Will, and allow that Presence of oneness to decree. This is the I AM Presence and the Creative Force will obey you in that dimensional frequency. Nothing will be denied. All will be given.

We are in a New World. Let us open our eyes to really see it and participate in the order of Melchizedek. A frequency zone has been established to enable you to restore the planet to Light and to translate your body into the full radiation of the Solar Man, Sun Man-Woman on Earth.

Recommended recording:  
**Body of Christ, A New Dimension**

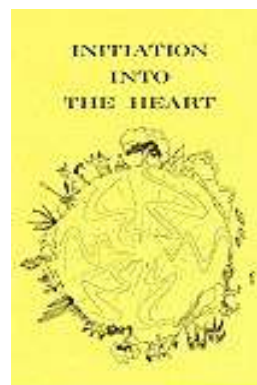

The vibrating Christ Dimension interlocks with earth as a governing force of pure love and dynamic authority.  
60 min.
