# Join the Circle

## Join the Circle

The Circle is the Creator, all the living parts of the whole breathing the Spirit Life. You are *initiated* into this Circle when you are ready. When you are ready, you can become a part of this Circle. It is a breathing sphere of Intelligence; a body of unity and realized Consciousness. The Circle of Life is a Personality, a network of intelligence. Chief Seattle, as you may recall, referred to this body or Circle as the *web of life*. Let us enter the Circle and experience the Personality of this interconnective expression of Life.

To be initiated into the circle, one must love life. One must keep in mind that everything is divine.

There is sacred light in everything. God lives through all life. The great giant trees will tell you of this and so will all the children on this earth.

When there seems to be an obstacle in your path or an anxiety, it is a clue that you are out of harmony. You have broken away from the circle, the eternal circle of Be-ing. The Spirit is the Circle. It is the quality of unity within all life.

A world of harmony has been **created for you** to experience—a wonderful world of oneness where everything is at one with one another because of the unity in everything as God. Where human beings have fallen from this unity of life, the dimension, or world expressed, is one of disharmony, duality, without Consciousness. The Web of Life or Consciousness has been forgotten.

And so, stress and anxiety are indicators. They say to you, “Get back in the circle!” Remember that within the circle are the squirrel and the snake and the wind and the river and everyone and everything. It is all there in the circle. People act differently when the Circle of Life is remembered. In the circle that contains everything and everyone, nothing is above and

nothing is below. It is all Spirit, Consciousness of the One. Birds fly together and group consciousness prevails. The Fifth Dimension is the Circle. It contains within it the activity of all kingdoms in higher frequency.

Remember that Mother Earth feeds you and nourishes you. She vibrates the circle. The Mother Spirit actually interlaces Herself through the planet and vibrates as one with her. Thus, we can say that Mother Earth is a living being.

The Mother Realm is planetary as well as spiritual. The Mother Principle vibrating through the Earth is opulence, healing, beauty and love. But in order to experience this beautiful expression of the Mother, we must return to the circle and partake consciously of the wheel of life. When we can do that with a humble heart and a respect for all creation, the wheel begins to turn again and abundance is experienced.

# The New City Of Light and The Madonna Program

THE SPECIALS Volume 4 no. 16

The Solar Logos salutes you in His energy field of Creative Power. That magnificent energy field that you feel when lying in the sunshine of My own Being.

You have been caught in the material field rotating about, dizzy from its magnification and thought forms. This is the time to call upon the Madonna Ray of the original creation. You are there with Her and She adjusts Her frequency to the I AM principle of your life. All may dissolve under Her magnificence but do not fear, for from this nothingness, neutral zone, will come forth a whole new creation: the passing of one into another and the trinity of life restored.

Heed not the words of the material field but heed the words of the Master. Original creation will be restored and is restored. It's all in how you understand truth principles in the sacred order of Melchizedek. This vast University presented to you now carries with it a challenge of new creation and the perspective of unending service as life intended.

May the Sun shine through your heart into your soul. May your life be extended, expanded so that you are truly the sunlight of the solar level of conscious awareness. Be now that which was intended. Let the old life go into the Priesthood of Melchizedek and the presence of unified oneness. This is the order personified now, the greatness of the order, the center of it, the Plan.

Heed now the message of the Solar Logos waiting, waiting as the moment

in time is expanded to say to you I AM. And then from this point of awareness, be that which you are in the sacred intent of the soul, the rhythm of Christ consciousness.

The Madonna Ray expands you ever brightly. And all that I AM is now: there is no future nor is there a past. But only this second into the next into the one. And all that I AM is yours in Me as the circuits are extended for you to know this, to concrete this and anchor this idea, thought form. Truth now passes to the earth and delivers all into the unification of Melchizedek and the Sun of My hand.

Behold that which you are in truth and never leave this point of awareness. It is the degree you have passed now and much will be known by this and by that which is to come yet already is.

Peace be amongst you. And yearn not, I already AM in the center of your being, in the regions of your soul awareness. Let the Madonna Ray bless us and cover us and join with our hearts and minds in the sacred revelation of the Son of God on earth I AM after the order of Melchizedek. Peace be amongst you and the way be shown throughout your career on earth. And in the mind let there always be alertness and all will be well. Heed now these words I have given.

Now shall they who have covered their heads uncover their heads.

May that be known.

## The Sacred City

And the words come to me: These are troubled times but we have places for you to go. We have brought cities to earth for you with loving vibrations. But you must be Christ-like in your nature. Your intent must be of the purest. And the sound of your voice must be sweet and gentle upon all life. And there must be no disturbance whatsoever in the lands of the new community. You will work harder than you've ever worked to maintain this energy field of light and love for all humanity and many shall benefit. But it's not to be easy. You cannot heed your lower self at all. It is to be stricken from your thoughts. You are examples of true life and that you must be.

(I, Crystal, have been shown that humanity, itself, would not be the same in development. The Earth's people would not carry the rebellion and the resistance that has been part of earth's history. In other words what I saw were like growing energy fields, growing children sweet in their growth. And animals too. So that there would be a responsibility for those who had further knowledge of the light to bestow that light on others.

That's the way we live on other planets and that's the way you will live now.)

## Group Transformation

The "Dark Moment of the Soul" isn't when we lose material things. The Dark Moment is when we cannot find our self. The Dark Moment is the gestation period. And out of that emerges that Christ-like being that you truly are, rinsed and made over for a new creation.

This Dark Moment is the transformation from self to Self. You lose your life to find it. It is not a matter of losing things but of losing "self" or identity. You know not who you are until the sacred Christ identity vibrates as your truth of being. Here we have the transformation of one, now we are ready to see the transformation of many into the Christ or Soul dimension.

The major jump now is a leap from a sense of humanhood or personal sense into soul consciousness. And it's not just one person that will be doing this! We are shifting a whole group, a compatible energy field, into a whole new rhythm and a whole new dimension of identity awareness.

So there is *a dark night* in that transformation because we as identities move into *group awareness* and *primary group responsibility*.

Frequently, the individual on the spiritual journey may still be concerned with the personal self (or ego). How am I going to make it? How am I going to live? Am I spiritual enough? Have I passed initiation? It won't matter at the level of the soul, the solar level of divine

*continued from page 3*

love. At this level of awareness you are reunited with those of like soul vibration. All personal concerns are dissolved in the awareness of unity within the group or service to the Plan of God.

In group consciousness you create a soul body that serves the Ashram of the Master and the power exuded from that body is many times more effective than that which can be done as a single unit or person.

## A New Awareness

In soul consciousness you are integrated and a part of the Hierarchy. The cares of the material world are diminished. You are absolutely one with Hierarchy.

We are looking at a shift into soul consciousness. Humanity - all over the earth - is preparing *as a body*. We are being alerted. Perhaps a deeper meaning will come to us of the landing of the Hierarchy and the dedication to the reappearance of the Christ. *The Christ being that soul consciousness, that soul level of the group experience, which is coming to earth.*

(Often the name "Hierarchy" is confused with phenomena. The Hierarchy of Great Ones, of World Servers, are those who have reached God Consciousness and have chosen to come back to us to assist us in our rising awareness of the Truth of Being. Hierarchy,

then, must be God's government in the many dimensions of Being who serve as light, life, law and love. - Crystal)

# Entrance Of The Madonna

THE UNIVERSITY PAPERS no. 122

*Holy spheres of light now proclaim a new age where Man and God are one. This unification brings the Madonna to the World Mother Center.*

## A Message given to Crystal and the circle

The Energy passing through you is the Madonna light and it is here that it will anchor and remain. You have been truly vigilant all of you here to maintain this circle of fire so that it can anchor and pass through to the earth. Remain in alert for there are things that must be done to anchor this ray in its perfection.

Your ascension is imminent. By this I mean that each and every one will be lifted to the Master. In this way the corrections can be made specifically and all tests will be passed. The Mother passes the vibration of the Madonna to all this Earth that it might rise in perfection and radiate outwards the blessed light it truly is.

### *The Madonna Flame is the new world of light.*

From the roots of the Madonna emerge a new world of consciousness. It is the ascension quality within you. It carries the Christ dimension and is the reigning frequency of this new day. As you carry forth the Madonna's music in your soul and throughout your whole being, you will find changes very apparent in your life energy and in your expression. You are truly born anew.

The Madonna is the presence of divine purity of mind and heart. It is the presence of the Paradise Mother as she bows to the lowest of lowest, little planet Earth and extends her arms outward to gather this little one unto her and recreate through her own presence the divine light that is the new world of this Earth planet.

Compare not with that other world, that which has gone before. There is no

comparison here. It is completely new. All laws are divine laws which are for the benefit of the many, and every expression through your heart is the Christ dimension extended to touch all life and to bless all life as a mother would.

Therefore walk in purity now and lovingly remember all as love would have you in this new world. Touch everything and everyone with love, with the love of the Light extended forth from the Paradise circuit through the Mother Divine to this tiny place in the cosmos called Earth.

Be still and listen, for Her Voice now will be heard, the sweetest voice ever told. What magic will come from this we ourselves cannot foretell. Only this: it will be beautiful, wonderful and just as pure to be! Listen now carefully to the great and powerful voice of the Divine Mother as She speaks to you of the final days, the emergence of Her Christ Office and the new dimension of light and love. When you have these words within, tell all. Do not confine your words to yourself but lift them high in the horizon for everybody, for everyone!

Even the tiniest of tiniest is loved by the great and powerful presence of the Divine Mother. Heed now the blessings that pour forth as mighty waves of abundance gather you up unto her that she might care for you as a son of God. Be lifted. Be lifted unto Her and as you are lifted, ingathered, remember the Madonna Flame, the Madonna Light, the

Madonna heavenly ray. The frequency that is now outpouring upon this Earth from the very emanation of Paradise!

Behold the Madonna stands before you. She is grace personified and loves all the same. Her abundance is for the many, not for the special few. She loves in laughter and in joy. Behold! For that which has come is the great and powerful Mother of all the cosmos. And She is here upon the tiniest of tiny to remember you in Her infinite being as the most lighted one, the light that shall never go out. The eternal flame of God's breath. Wonder of wonders.

And here again She says unto you, **My son, My son, My only bespoken son, I am with you now and forever as the Mother of Christ.** Be of the purest of the purest. Each moment radiate forth the Madonna and every thought and every desire feeling will be of that which is so pure and so divine that only Christ can emerge. Be there now in the light of the Madonna as she sets Her Flame upon this Earth.

### **The Meaning Of The Madonna**

The Vibration of the Mother Light direct from the Paradise alignment indicates an immediate readjustment to the projected World of Light, the Christ sphere. Throughout the teachings of this school, much has

*continued on page 6*

# Entrance Of The Madonna

been said about the Mother line of immaculate perception.

The Madonna Ray or Light is pristine pure. It is the virgin light of all creation and bespeaks an energy that is complete in itself. An intelligent energy radiating out the Mother's will for the creation and Her position in creation as Christ embodiment. The presence of the Madonna Flame insures the coming of the Christ pure love and it also purifies the whole planet as a powerful blanket of new birth.

As the Madonna Ray was anchored to the World Mother Center, the presence of that immaculate ray was almost too much to bear. As the Madonna Ray was passed through me - and this occurred three times - I almost fainted from the tremendous power of its vibration. There remains here at the Center a power of vibration that is entirely new and Her presence of pure light. — Crystal

## From The World Mother Office

We are ready to sever you from this world you live in. You have the preparation for this severing. You know what to do and where to go for your sustenance. Therefore at this time, let the world that you have been living in and walking in, be severed that you might know truly the world of light and join the angels in the God consciousness I AM.

And so the Madonna comes vibrating to us as the pure world of light and in Her we know Christ Consciousness and there is no rebellion, no rebellion at all. For in Her is peace and justice as divine love.

## continued from page 5

Trained to walk in the light, leave now this world of the mortals and walk in the light. In the great light of Sananda is the peace, the understanding and the new Jerusalem for you and for all people everywhere, all creatures great and small.

Light the candle of your own consciousness first and then go forth and light the world. Peace be unto you. I am Mary who has been with you for a very long time. I send my love out through you to all this Earth, to all upon it, to every living thing. Peace on earth and goodwill to men.

## From Angels In Waiting

Lesson 4, p. 12<sup>1</sup>

“The World Mother is an Office held by Mother Mary within the Planetary Hierarchy. She is in Meditation now, focusing on the God Seed within each human heart. Soon it is anticipated that She will declare the AllSon born as Consciousness risen. This will mean a new humanity, evolved from the power circuits of the Supreme, has been born and with this birth of 'new man,' the old world crumbles to dust and is no more.”

## A Message

The Madonna is without the contamination of our present material plane. She is pure Energy of Divine Be-ing in expression now in many areas of our planet. Her

passage into this planet benefits Earth herself and all who will accept the Christ within as Her Light Seed. *Be that clarity, that virgin light.*

Note: The Madonna Ray releases the energy of purity without the contamination of the material plane. Let your every desire and every thought be a part of the Madonna vibration. Receive Her in your own being. Know that as you accept Her Flame in your heart and mind, all your desires and your thoughts are for God's Plan and the good of humanity as a whole. Purity is your resurrection. Divinity is your person. Have the Life intended and realize your Christ Self. Heed the Light of the Madonna announcing the new creation.

## You Have A Job To Do

I will increase your understanding within you that your hearts may be opened further to the love of God which rests in all souls. That you might stir by your love the flame of Christ, the flame of Jesus. That you might stir the light of this same Christ within all men's hearts that man might seek God further, deeper into himself and find there the secret of the ages: I AM.

It is a promise land, a place of light and love that each has within himself. Look no further than your own heart. Seek no further than that Christ within. Carry this light forth among men and speak the truth to them as it is given from the Son. Lo that which shines upon you is the Sun within and the light ever present knows no death. I am Mary.

# Entrance Of The Madonna

I am the blessed Mother. I am the World Mother and I light your soul now with a deeper understanding of the solar lesson that you have for all men.

## Blessed Among Women

(It was Christmas evening and we were completing the book "Blessed Among Women" by Arnold Michael. As I closed the book, having finished the last chapter, these words came to me. - Crystal)

Be soft and gentle and walk with padded feet. Be clothed in light always so that all men can see your light radiant. Each one of you hearing this message tonight will make your ascension soon. Though Easter may not be the day, it is the measurement of this energy that we call Easter that will come to you with the good tidings of your ascension.

There is naught that you can do but love in the rising of your Christ light. And there are gifts that you have not explored yet that dwell within your soul temple. Please now rest in the qualified sound of Mary, for I bring this sound myself that all might understand the true birth of light that is this new age. In each heart there will come an uprising of Spirit. For the Master will show himself as face to face to the one who is delivered up unto him.

Teach the little ones of me. That I am the Mother of a new race of humanity. Let them know my love and raise them in my embrace that I might be a solace unto them and love them as my sons. Though storms may come, there is no storm in the heart of that one who loves. There is no storm in the heart of that one who is compassionate with all life. And no storm that can harm *anyone* who puts God before all else.

*continued from page 6*

A blessing goes forth to planet Earth and to all those who are listening to the Christ light. This blessing will touch many and indeed start the resurrection of the heart to God. There is no turning back now for I have begun my reign, as the Lord has bidden me to do so, and I will take my responsibilities seriously as the Mother of the human race.

I have brought upon you a new light that will be carried forth when you leave here. And each one will be blessed by my hand and by the works of my hand. And in this way they will bless many. As Jesus would have me say: *Love thy neighbour as thyself. Love God above all else. And deliver up my people unto me that I might pass them to the Father.* So shall I say these same words unto you that you might know the truth of them.

Bless now the Christ that dwells within you. You and that Christ light are one. You are nature of God. And you are body, mind and spirit of the Christ light. Each moment is divine as I resurrect you into the Christ child of the holy name.

Live in the moment as you are wayshowers of the new way, a brand new way of being. I am continually with you and I will not leave your sides nor do I intend to walk away. You are ever with me as the child of my heart. I am Mary your blessed Mother come amongst you. You will sow mighty seeds on earth; each one here.<sup>2</sup> Your reverence for the Spirit is well known and places you in the highest of high.

Dwell now in peace and with me and walk not in the future but in the moment. For each moment is rich and wondrous and pure. This is my way and it is the way of your Son the Christ. I announce this Way that you might walk with me forgetting the past; remembering only the beautiful light I AM. As a fountain, a breeze of holy breath passes amongst you now, know that you are risen and that I, the holy Mother, have been with you a very long time. That I rejoice that you are now with me in a body divine as a glowing sun. Let now the light of the Divine Mother, as the creation stirs, touch this planet Earth and bring into awareness the God within. And let each heart be opened further to the blessing of the Son of God, the radiance Supreme. Let the heavens awaken also to My Voice and the angels prepare to receive more.

<sup>2</sup>The Mother speaks to you also. Please take these words for yourself, for she has meant them that way.

**"I have come that you might be risen.**

**I will not leave you until this is done."**

**- The Mother**

## The Mother's Breath: *an exercise*

**A**cknowledge and accept the Christ identity based within your heart. Release those old thoughts and go there. (Without that releasing, you cannot find Me, nor I you.) You were made in the image and likeness of God. Go to that place. Here I am. Your son. Here I am. Your son. Then breathe with the Mother Spirit. Accept Her life in you.<sup>1</sup> And the Spirit is a generous provider. The Mother Spirit is supply. *When you hunger, I will feed you.* And the proof of the pudding, I am told, will come.

See yourself in the Christ center. Be clothed with that Spirit. Let it be your energy. Let it be your clothing of light. Take up your citizenship in the new day.

The Mother Spirit, that divine and Holy Breath, must obey the Child of God.<sup>2</sup> She is the nourisher and completes Herself through this action. She will fulfill that body or consciousness with everything it needs or desires. She is the Provider of that Child's life. She cannot refuse. This is Universe Law. The Mother is intelligent Energy. She knows and discerns the true Child.

If there is imbalance, She will bring balance, restore harmony. She is the only provider of the Child. *It gives Me great pleasure to give you the Kingdom.* That is your birthright. And that is the major step for humanity. Sananda needs you there.
