The New World Community

THE MASTER'S PAPERS Number 45

Recently there has been a tidal wave of lessons, ways to show us - as we have gathered together, under different situations, cultures and assignments - where we as a body have some work to do: conscious alignment with our Master's ashram, His/Her circle of fire and the Christ Energy of which all things are made. I, Crystal, seek to give you the information and the heart energy you may need to fully and completely understand the World Community Plan which the Hierarchy is extending to us now.

I would like to pass on to you now in a different language perhaps than is usually regulated through these Papers: this is the language of the First Peoples, the language of fire and of love.

The first law of living in community, be it within an ashram such as that of the World Teacher, or within a classroom or extended family, is unity, consideration for the whole. In a group one does not consider one's self first, one considers the other. The law is the

same. It is universal. First *consideration is always given to the whole*. Will your remark upset the balance of group unity? Might your thoughtless remark make an indelible scar on the new chela, student/disciple? Is your remark given as a purposeful, loving selfless building block to the group fulfillment? These things are to be carefully considered as we draw together - ever closer - in the Christ dimension of love and light.

We are held accountable for what we do. Each word must be carefully considered before it is uttered. *Each word (idea) planted in the group thought is to be released to the Great White Brotherhood for the benefit of the whole*. You are all held accountable now as we rise together into a whole new dimension of conscious resurrection and divine brother-sisterhood.

A close and respected friend, who has recently crossed over into Spirit land, once said to me that when the people of his church (Native American Church) gather together for prayer and healing -- and they often pray all night -- the last person they consider for prayer and healing is themselves. This is the best example I can think of when we thoughtfully consider World Community and living in community together.

Whether you are part of a spiritual study group, a workshop, a negotiating team, a business meeting or a conscious participant of an Ashram within the Great White Brotherhood, it is all the same. *Consider the group first*, the group circle, its goals, its visions, its service to the Divine Plan. When you have the group in mind first, you will always shed the self.) The "ego" cannot survive in selfless service. It must

drop away.

In many ways the western human being is spoiled or at least ignorant of the rules and disciplines of world service. There is very little consciousness as yet of "the whole", that all inclusive whole wherein abides the Breathing of The Plan.

And so it is not only time for a breakthrough but it is also time for discipline that will not permit the emotions nor the ambitious and often rambunctious mind to tear apart the dreams and the visions that have been contributed to the forming group by the Masters.

A great contribution is being made to human awareness by the indigenous peoples, the peoples of the earth, frequently called "the First Peoples". Our Native American sisters and brothers have shared their practice of Greetings and Thanksgiving, where not only is the Creator of All Things acknowledged and thanked, but all things of the Circle: the four-legends, the winged ones, Grandmother Earth, Grandfather Sun ... This draws us all together in the One and gives us the sense of unity and partnership. It gives us the sense of caring for one another and respecting each part of the whole.

Decision making and group manifestation is part of our training at the present. We will be of great service to the higher rhythms when, as a group, we can receive the cosmic thought-forms of the Masters, agree on earth and release as a group awareness the full knowledge "It is finished, it is done." What a contribution we will offer to The Christ, the activity of

the Great White Brotherhood! Much training and opportunity is being offered at this time to develop group awareness and holistic thinking for the Christ and for the Melchizedek Order.

Ponder this. I have a few words to give you from my own mind and heart. These words/ideas are perhaps closer to indigenous thinking than to the western orientation.

Your idea is a building block (within the group). This idea or precious vision is offered gently with respect to the group awareness. Yet as it is gently offered it is also released into the Central Fire of the *One that abides in the circle*. Thus you, who have held your thought and guarded it intelligently, must now release it - no matter how great and grand that thought might be - into the Central Fire that abides within the group. *Your idea or vision is not the whole vision or the whole idea*: it is only a piece, an important building block nevertheless. It becomes a brick in place. A part of a greater vision.

All the building blocks (of the group participation) are put into the center of the group circle where the Great Fire lies. For the Great Fire of Love, Power and Wisdom knows all. It listens to each member of the group, which means circle, and considers each contribution. The Great Fire accepts all contributions as part of Itself. And It listens to each and every one.

It is acknowledged within the circle that each member of the body or circle has only a portion of the grand plan. It is never complete. The completion you will find within the Circle of Fire. Study this well: for there must be no division when one is creating. Divine Mind knows and carries the greater vision. It is a vision that reaches from ocean to ocean, to the far seas of many nations, planets and galaxies. And so the Council Fire, the Central Fire, grows larger with pleasure, as each member accepts the wisdom and the greater vision of the Fire and gives up the small idea into the sweeping flames of Creative Thinking.

Even as the Sun seeks its own so does the Great Fire seek to restore Its vision on earth. It is a sacrifice for the individual member of the group to release his or her precious thought-form to the Great Spirit that is the Fire of All Dreams. And the Fire knows and listens for that dedication and sacrifice. The lower self is also sacrificed into the flames of light and love. With each release - the Great Fire dissolves the "little self" as It builds for the greater good.

The key here is the release of ambition, sense of self, mission, into the world service of The Christ. *Only then can true building begin*. Only then can creative power rise at a group level. And then can the group of servers commence to work consciously with the Hierarchy (God's government and governance) in vibrating the Plan to earth and assisting The Christ in the Second Coming.

True building begins in the Spirit and ends there. Thus there is a process of receiving a vision, a thought-form, agreeing with it, and returning it to the spiritual Wisdom from which it has come, so that it can objectify as far more than the human mind can conceive.

The above may well explain a process called "group initiation." And those who persevere with love and light will find, I am sure, a rainbow of fellow servers dedicated and rightfully trained to move as a World Community of Vibration keyed to The Christ.

Yes, we as humanity, will find ourselves soon in a new world order. This divine order of consciousness is the Coming of The Lord (the Word). It is the manifestation of world service, and selfless, unconditional love. This is the group I speak of called "The World Community", and it is to this group that much attention is being given at this time. This Community becomes the Christ manifesting in each heart: a World Community fulfilled to end mortal suffering on a planet that has cried out for resurrection.

Germain says, *We test your mettle for your next step.* **What you agree with, you can do.**

So we're activating the Heavenly Man, the vibrating energy field that is one with the universe. *One with the Creator*. And it is here we say *I AM*.

It is necessary to collapse the old world because a new world is in place. You can live by the laws of the new world now. You are focused and you have the power. You are, indeed, ready. Take your steps in alignment and walk with the light of the Sun. The sacred God in Man (I AM) is ready to perform Its works as divine love.

You can burn your bridge because I already AM. You can let go because it is all right. It has never been better. You know sometimes a little bird says, oh, yes, but I'm clinging to my nest. And the mother bird says, you can fly.

To Manifest Or Not To Manifest

THE MASTER'S PAPERS No. 88

You have been summoned to the tree of life where you can pluck of your own abundance.

Do you remember when you first learned to affirm? How you learned to affirm *through the illusion*, without giving power (authority) to illusion? How sometimes the negative would appear to be so believable and so strong that it was a daily work for you to focus and to affirm the truth?

And you saw the results, didn't you? There were times when the opposition or the walls of illusionary substance actually seemed to be resisting the truth of being so that it appeared as though there were two separate worlds and two separate wills fighting one another for supremacy. Do you remember that?

Where are you now in your consciousness? Are you in the Supreme Being, at rest in the oneness, or does the fight continue, one world against another?

If you can look back at your metaphysical training (if you have had this type of spiritual schooling) you will recall that with practice and consistent meditation and affirmation, you became stronger in Spirit. It is possible that through the spiritual strength you were acquiring you attended another spiritual dimension of schooling where you became acquainted with the Inner Voice, the attunement with your divine nature and the constancy of the always available Divine Mind. From this point you moved to the idea of decreeing at one with your Christ Self, the I AM Presence. From this place of awareness with the Adjuster¹ you learned to decree by releasing the word of Spirit, *the divine intent*, allowing It to embody Itself. You were becoming closer to the divine, to the realized presence of God. You were

learning to be a master, forgetting the self entirely for the good of the whole.

Because human beings are lazy - for the most part - and they have applied only a tiny particle of their God potential, the exercise in manifestation is being stressed, but only - and I say only - as a necessary step into unification with God Mind, the Supreme. Actualizing your abundance out of the substance of the Holy Breath is a mandate now. It is part of your journey into mastership and the Priesthood of Melchizedek.

In this discipline of direct manifestation you learn to declare the need or the desire. *This declaration is a vision statement.* You connect it to the God Universe so that all may benefit.

Having set your mind and your heart upon the idea to be manifest, you concentrate and will the thought into direct manifestation by your belief in it. You direct your energy to the thought. To concentrate is to release the form into manifestation.

These are the first lessons on creation. You cannot advance any further until you can achieve the act of manifestation through your own mind and heart. This is a realization technique that must be understood. It is a technique of creating with the Creator, of aligning with the Creator in the sacred rhythm of Be-ing.

You have to manifest to be. Now, we can take the idea of manifesting, the activity of manifesting, take it further and deeper into the higher chakras, where manifestation won't be an act of separation but will be the life activity of Spirit. The will must be strong and the

concentration pure for this adjustment. We are talking about tremendous cosmic activity now, a type of activity that could tear down the human form. It is that strong. You must be even stronger!

You Can Fly

God is not giving you something for nothing. God is unleashing Itself as POWER, great power, tremendous power that belongs to the Heavenly Man.²

In the cosmic order of Melchizedek, there is no waiting for a savior. Far from it! You must open to your higher intelligence and realize the powerful circuits of your unified Self, the multidimensional being you are as Sun.

You could actually look at the act of manifestation as part of the exercising of Be-ing.

Nothing occurs on the spiritual path that you are not prepared for. If you are listening, you will receive all the information you need. Then you exercise these new places of dynamic potential that are part of you as the Heavenly Man. Does that make sense? And that's why at a point, you will move from a place of a Father God taking care of you to becoming one with that vital body of the Creator.

And we complement one another in our strength, not weaken one another by dependency. Saint

The Poverty Initiation

THE MASTER'S PAPERS Number 97

This is the transference from the world into the Breath of God. Minerva, the Scribe of Melchizedek who recorded three masterpieces of Melchizedek truth, wrote regarding this important initiation that he who undergoes this initiation is blessed.

In this initiation the disciple turns away from the world as his or her provider. No more will this one ever look to the world for supply as he or she has crossed through the gates of suffering and hard work into the light of simply Be-ing or God in expression.

I am issuing this Paper today as I am acutely aware of those of you who are either being prepared for this sacred initiation or you are in the vibration of this transference and redistribution of My Life circuit.

Maintaining your equilibrium while undergoing this initiation process will enable you to transfer quickly and with knowing into the new level of Be-ing where the I AM THAT I AM is active.

As you are preparing to transfer your attention and deep love into the Presence of the Holy Breath or ever-present and Divine Supply, all of the lessons and exercises that have been given to you by the Order through this University may be put to good use. Keep your foundation strong and pure. Remember that when you affirm you are integrating positive agreement such as: *God supplies all my needs. Thank you, God!* into both your conscious and subconscious mind. This agreement will direct the forces of supply immediately and curtail any tendency you may have to look to the world as your supplier.

Also nourish the most important foundation you have: that of knowing and accepting the God image and likeness as your true self (Seed of God) as who you are. There is no question then of your right and your inheritance of universal supply.

The Poverty Initiation is the grand initiation that closes the door and locks the gate into the world. With the completion of this grand initiation you

command and it is done. You know and it is. God's will is your will for now you stand present as the full I AM and all that God has is yours *because We are One*.

A special note here: The Poverty Initiation cannot be met by metaphysical formulas appropriate only for the "self" or ego orientation. For the Poverty Initiation will take the disciple into selfless service where the orientation will be group mind and oneness. This is a dramatic shift for the whole of humanity now taking place in the four corners of this earth. Be apprised of this and meet your initiation with the power and the authority you have practiced and acquired through this University. We are all with you and want you serving with us (the Great White Brotherhood) in the Mother's Breath.

The Shift

With the passing of this extraordinary initiation into the life energy that is the Presence or God's Breath, all desire and requirements are fulfilled by the Mother's Breath or Holy Breath. There is a transference from the ego level of working or doing.¹ As the disciple has completed his or her initiation and the transfer of energy is complete within the disciple him/herself, a seeming miraculous event occurs. The Mother then is permitted to release Herself as supply directly through the individual as the Holy Breath or Creative Daughter Spirit. This is the powerful energy field of the Universe Mother. The contact then is with the Group Plan. All reasons for manifestation must come from that point of unification and Hierarchical agreement. From this point on all supply is immediate as directed by the Plan of God and His-Her body of servers.

More on "Group-Consciousness"

THE MASTER'S
PAPERS Number 99

The word "group-consciousness" has many different meanings, one of which is one with the Ashram of Kuthumi. This is the one I wish to address today.

Much has been addressed to the group consciousness through this University. Now we want you to understand the true meaning of "the group." The presence of group energy is a higher state of consciousness than a single rhythm of agreement with my solar word. This is because in the group continuity all is in agreement with me, that is the ashram of K.H. Do you understand me so far?

What I am seeking as a group manifestation is a unity rhythm within the group of collected beings now serving the planet Earth and the Hierarchy. We, as Hierarchy, will look for those who can hold and maintain the presence of the group and fulfill through this positive energy the Plan.

The steps are as follows. The group which is present or integrated in the mind by agreement (thus the group can be many miles away yet present in the vibration of unity) meditates together on the question or seeming problem. Always in seeking their Inner Voice or Thought Adjuster these members are empty in the Purpose of realizing *the Will of God*. Thus the Master's Energy passes into the initiate to be given as group energy. The

To Tithe Or Not To Tithe, The Meaning of Tithing

THE MASTER'S PAPERS No. 69

This letter from Master Kuthumi and myself is to encourage many of you to expand your awareness of abundance.

Only a very few students and participants of this University tithe or give a financial gift without expectation of receiving lessons, tapes etc. What this does is reinforce the third dimensional material plane. This is true also when you judge "the cost" of a seminar by hours, days and whether one or two meals are included! Give from the heart and you will not judge according to the amount of hours spent at the seminar-workshop. Listen to the Christ Within and give from that place. Let your heart be filled with love when you make your donation and you will be giving from that place in you that is limitless abundance in expression. I encourage you to practice this.

When you tithe too you are opening the door to abundant expression. Never give from a feeling of lack, rather let your gift come from a sense of gratitude and a recognition of God in expression. Then you will be filled to overflowing. When you tighten up with feelings of lack and when you hold on to pennies and dollars, you shut the door to the opulent expression of your Creative Power. Let no one slam the door unto himself!

Joel Goldsmith in his book *Invisible Supply* speaks of tithing. "Years ago gratitude was expressed by tithing to the church, the source of spiritual food and spiritual comfort. The church was also often the only source of material help. When tithing was directed to the church from a sense of gratitude for its benevolence, it was a blessing to both the giver and the receiver. However, eventually some shrewd individuals figured out that by giving 10 percent they might get 90 percent in return, and tithing became a percentage deal. Because of this, tithing lost its effectiveness and eventually disappeared as a general custom, although it continued among Mormons, the Quakers, and some minority

groups. But, on the whole, tithing is no longer recognized, as it once was, as a means of expressing gratitude for what we receive from the spiritual source of our lives.

'Tithing, when practiced anonymously as the Master taught it, is a joy, a pleasure, a privilege to those who have rediscovered it. Those who tithe, without letting anyone know of it and with gratitude as their only motive, discover that there is indeed a Father who rewards openly. 'Thy Father which seeth in secret...shall reward thee openly.'¹ But one must not tithe for the reward, for then it becomes a business proposition and is no longer a spiritual activity....We are not looking for supply to come to us; we are proving that we have supply, even if it is expressed in only pennies or pence....

"Some people give away great fortunes yet are no more blessed than the widow who gave the mite. What matters is not the number of pounds or dollars you give; it is the amount you give in proportion to your immediate means. In dollars and cents or in pounds and pence it is impossible to measure how much we should give. The only measuring stick is how much love we are expressing, how much cooperation, how much recognition, how much praying, how much forgiving, how much we give in secrecy without drawing the attention of others to our benevolence." From *Invisible Supply* by Joel S. Goldsmith, pages 13, 14, 15, published by Harper San Francisco.

Nothing can be clearer than the above statement. It is truly a revelation of the release of **all that I AM**. Enter the World of Light where the light is constantly with you in ever increasing supply.

¹*Matthew 6:4*

Release and be brave enough - courageous enough - to release from your God Center all that I AM. And love with the fullness of your heart. God has plenty. Be abundant in your expression, be glorified in the vibrant, radiant world of creative knowing.

I AM Kuthumi with Crystal blessing all in the perfect rhythm of God Being.

Voice speaks as the Plan. Each member of the meditating group receives from the transmission of the Ashram; the Inner Voice responds to the question. As the group shares, the Master interposes Him/Herself as lifting power. It is from this lifting power as transmission of the Ashram (such as my own) and the group agreement as response, that a new solar level can be reached and the Plan renewed and recognized.

It is from those gathered who form a circle of willingness and one-centeredness that the Lodge can join with those meditating. And as this happens the point of the energy streaming forth from the Master fills the initiate and proclaims the group. Thus the group is one with the Master and the Master is the group. This is the power of the conducting force that we seek from you, the chelas.

Peace of God be with you. I AM Kuthumi, the World Teacher for your ascension.

The unfolding of the abundance I AM Opening to the creative source within you

THE MASTER'S PAPERS Number 57

I asked the Question: What is the simplest way to present this 'new' perspective of ever expressing abundant life, abundant living without fear of poverty or insecurity? Humanity needs a helping hand!

And the answer came: Stay with the first thought. Do not sway from your first decision. You will deflect your creative power and cause it to dissipate. You must hold the pattern!

If you change your mind in midstream, the Creative Force will not know, where it is to go and what it is to do. *Believe in Yourself.*

Be definite about your belief. Know *that you know*. Without that positive direction, there is no creative power.

When you have an idea, stay with it. Being indecisive, doubting, going against your decision disrupts the creative forces. It is like a map that you have drawn for the Creative Force.¹ It knows no other way.

Please remember also that when a decision has been made, or a goal set in your mind, at that moment a command is radiated to your Creative Force and it, in turn, directs and programs the radiation of itself into *future, ongoing abundant expression*. To clarify this, the instant you agree with an idea, or make a decision, all the creative forces are at your beck and call. These forces of life and creative power continue to develop the decision/vision/idea into your future life expression. And continuing abundance and success is assured by staying with the *first* idea and allowing *that* plan to develop into greater and greater and greater expressions. Be there. Live present. Support the Creative Force. *It has already begun to move in your behalf.*

Of course, those of you aligned to the Inner Voice, or the Thought Adjuster, should realize the potency of your idea and decision and stand with it, no matter how impossible it may seem to the rational mind. A strong idea is your direction then. Follow it!

Resurrection At The Omega Point

This is when Energy-Spirit as "God" knows Itself in a particular dimensional frequency, thus It draws into Itself, because of Its Conscious Recognition, all life either that was or is destined to Be.² This recognition process is known as *Resurrection*. It is the Creative Energy declaring Itself in you, the Omnipresence. The Key - generative key - is knowing God within yourself, thus setting up a positive grid of vital force.

Omega (star point), as Infinite Creator, is drawn up into Alpha emerging once again as Consciousness of Itself, as God The Supreme with *willingness to supply all I AM*. This is the creative target of your new race.

Your angel creation is helping you ascend. They (angels) are with you in your thought and actions. And as you walk so you walk with them.

The divine Center is your Self. Be there. You have a right to behold yourself as divine.

You should help the body repair itself by asking The Mother to enter it.

¹ *There are forces within the Force!*

² *At this Point or degree everything is in a position of resurrection and Being now is reality overseeing all life as Life Itself. We see a new dimension emerging, and this dimension is called Supreme.*

On Direct Manifestation

THE MASTER'S PAPERS Number 39

In looking to the Source for your supply, the answer to your needs, call forth the Voice in you. That way you are assured that "the Father and I are One." Then you are speaking or decreeing in the Holy Spirit, which is the abundant nature of the Lord. Your supply is always assured in the Holy Spirit.

Now, as you align within your heart and mind with the I AM Presence, you must decree directly from that. That is where the supply will come from. It is manifest in the I AM and moves through the Holy Spirit, or Holy Breath, directly into manifestation as the reality I AM. Thus you have the direct objectification of God as the manifest decree. No other will suffice at this time. It has to be the Creative Power in manifestation as I AM.

It is through the Word: I AM, and I AM only, that you become attuned to the original creation and so subject yourself to Love Incarnate: the Christ in you.

When you decree directly from God there is no other. **And the Word will become flesh** and the flesh shall embody itself as I AM. The Melchizedek order reads: I AM THAT I AM.

As you decree look not to the right nor the left, nor forward nor backward but seek only the I AM Presence in you. This is your holy supply. You see, if you decree for manifestation and then wonder how the decree will come to pass, you confuse and disturb the creative process *which has already started* once the decree has been uttered on My Breath. Not a cloud must arise in your mind. *No doubt whatsoever.*

Furthermore, as you decree, know with Jesus that it is already done. That it is finished and done. You do not have to know how it will be done, only that it is done. When you can loose all ego and rely only on direct manifestation, objectification will occur instantaneously on the Breath of Life. You have given the decree substance by

Your Testing Time

SOLAR NEWS Volume 4, Number 39

Much like a new rocket ship ready to be sent forth into higher dimensions of discovery and revelation, you are being tested and tried for your endurance and ability to hear the Voice of direction within you.

I can imagine you saying, what more tests? I am tired of tests! Let's get on with it!

These tests are your final tests for this dimension. Just as you would take a test to pass a grade and move into higher requirements, so your tests are coming to evaluate how well you are responding to the Priesthood of Melchizedek and critical mass.

Not only your physical body must respond in a receptive manner, but also your mind and all chakras must be tried in the passage of light. This is why you are very often advised to forgo the eating of meat or other flesh foods. These foods do not register well in the higher chakras nor can they feed the light body, which is your vehicle in the new dimensions of light.

Other foods and drinks may be discouraged as you raise your vibrations into the light and solar consciousness. But pay attention. Do not condemn others for their food habits. Your Inner Voice knows your needs and guides you as a loving shepherd. Be patient with others, even as We have been patient with you.

The physical vehicle may react to the incoming vibrations with shortness of breath, weakness in the legs, odd pains here and there, as well as heart pounding or fluttering. If or when this should occur, remain calm and align with the one Breathe of the Christ body. Breathe gently while knowing that you are resting in God the Spirit and all is well. Don't let appearances disturb your truth, nor give any energy to the negative suggestion.

I require you to be at home in the Holy Spirit - not dragging your feet - but at home, adjusted to the spiritual frequency of God in you. The minute you trust Me, I AM there actively embracing you. My presence is within you as I AM. And in Me you have the strength and the endurance you need to walk the path of light.

It is good advice not to judge another, as each

one has his or her own tests. You are all being tested in the fires of My Son to translate and to complete your journey from mortal to the immortal. The Great Light seeks you out and embodies as the Great Son/Sun in your heart. That Sun in all its purity wants to shine with splendor. It seeks to shine through every particle of your body as energy. Let it shine!

You are never alone. The great ones walk with you and They carry Their records of accomplishments. As you are tested, you receive these records and so they become yours.

When you reach a portal of initiation the master or teacher will back away. This is the time of testing when We see what you have learned and assimilated. Thus, though it may seem as though no one cares and you are alone, this is a test for you that will bring you into a greater degree of cosmic energy and understanding.

Depend on no one save the Great Light within you. Look to God within for all your needs. The way through portal and initiation is your dependency on your GodSelf, the divine Presence I AM.

Remember this and do not feed on the world. These are crucial moments for you. You have studied, now walk the Light you are. Keep your eye single and your thoughts upon the divine Light and your Inner Voice.

You are the Sun. Blaze forth the Son of God within yourself, and so give birth to a new age of solar energy, the divine fire of Love. Complete your tests now and live as the GodSelf.

On Direct Manifestation

continued from page 7

your belief.

There is no "sweat of the brow" involved here! Remember, look not to the left nor the right. When you rely on the eternal substance of God only, that Divine Substance will manifest in whatever manner you so designate in your decree.

Thus, you are putting nothing in between the desire or decree and its objectification. No time clock is involved. No means whatsoever other than reliance on the Holy Spirit I AM to take direct embodiment as that so decreed. *I AM That I AM.*

There is no ego involved. No time involved. Only that which was decreed in its perfect manifestation. The purity of My Be-ing is reflected by your thought.

When you can walk this way, as I have walked,¹ you will find Radiant Light always at your beck and call.

Live now in the Presence and call forth that Presence - out of yourself - and permit it to objectify as the form anticipated and realized. The Master Jesus walked this way, so can you. Behold I AM!

The Third Eye Focus

As you bring your attention to the point between the eyebrows, you will feel a solid foundation there. It is the building of the capstone.

Focusing on the Third Eye draws all energy into that place of divine union. Here is your point of command and revelation. When decreeing, decree from this place of union and absolute authority. When you are there, nothing can disturb you. You have absolute command of all energy as it comes home to you. And as you send forth the command to objectify, know that it is done. Feel the power as you direct your energy in this manner. There will be no question in your mind whatsoever when you command from this point of absolute consciousness.
