Revelations of Light

The University Papers Volume 70, #85

I have come not to become you but to reveal you.

The Ascension is in progress. You are raising your bodies into light. Be clothed now with a higher frequency of Universal Love that is extended to this Earth and to all who abide on it.

We release now a presence of Universal Love, of Divine Love that is the Law. Abide in it. This is peace universal. You are ascending to this place. *A transfiguration is near.*

And as you are ascending, darkness is no more. Therefore, receive the light (high intensity beam) of your High Self. The blessings of Kuthumi (Ascended Master Kuthumi) go upon this

message and all is well.

The Ascension is in progress. Peace on Earth. Behold the Light!

Let go into the light that all might feel the light of your conscious ascension.

The Light Extension

The "light shield"¹ separates one dimension from the next. It intervenes between two dimensional frequencies, thus serving as a transfusion cup, a dividing line, a vortex of radiation.

Picture, if you will, that you are standing near the shield one arm extended into the shield of light, as though you are already moving into a new vibrational consistency, a new world of light. How many more minutes do you have until you are entirely enveloped by this light shield and are drawn through it into a new frequency of living and loving? Perhaps a few hours, a few days, a month or two? Stand with the light!

The Master Kuthumi (K.H.) has said that "The Ascension is in progress", and I think we must take His word for it. Frequently we are cautioned not to attempt to bring the third dimension into the new vibration. *You are ascending.* The dogma of the third dimension is finished, done. It has no reality and no place in our movement into the light.

Let me share with you information that has recently been transmitted to me:

¹Radiation field through which all must pass. A unified field of universal knowledge, a unified field of universal supply *where in I AM.*

Revelations of Light

The Flashing Consciousness of the Universal Father moves through many dimensions of time and space dividing not, but always continuing. It is here in the place where God The Father dwells that Metatron can energize the vehicle further and transmit all offspring into qualified energies of light. (Life) All offspring are going to be transmitted into universal light.

The passage through the curtain of light is mandatory in order that man himself can and will meet his/her immortality and greet the Sun in himself. And that's the light, the great light of Be-ing. (The Sun is the great light of Be-ing.) And so it is absolutely mandatory that you move through this shield of light into your immortality. (It is the place of resurrection, this light shield. It is the place of conscious awareness.)

The light awareness, now coming to this planet, translates all creation whether it is "willing" or not.⁴

(This makes sense only if we can envision Be-ing emerging as Itself:

continued from page 2

the I AM Presence. God Diety emerging. The Presence of God (Truth) finding Itself in a new dimension of Itself. Loving and permitting all life to experience this new place also in the light of Be-ing. If there is one Presence and one Power, this makes all the sense in the world, and we can understand this and agree. So, the Christed planet is emerging and we are part of that universal plan. -C.)

As far as all creation - whether it is willing or not - this is because the "New Israel" has been established: a vital Energy of life that cannot or will not be ruled or controlled by will creatures any longer. (In the House of God² all is at one.)

The greater part is Law Universal. The Body of Christ reveals Itself and all the heavens rejoice.

As the tidal wave occurs, all becomes as one for a moment, a second. Then will come what has been prophesied but not understood properly. It will be the Second Adam or "the Wayshower of the planet" as *Collective Christ* measures Itself once again to continue on and on, rolling as fire rolls, into the Father Sananda.

You, who have gathered here to hear³ My voice, know My word. It flashes forth again All Law on Earth and in the skies forevermore.⁴ (As I, Crystal, wrote this, I saw the Word flashing as the Law. It was much like a configuration of energy, of power, that actually flashes or broadcasts Itself. Not as words, not as thoughts but as a degree of Presence; as the Law for this space-time continuum.)

For here in this day of Unity comes the World of Light. And here, too, lives the light totally

²God Consciousness

⁴I have taken control of Planet Earth. - The Planetary Prince.

Revelations of Light

free of you, cast already by My Word *in the Name of the Father and the Mother and the Son and Daughter.*⁵ You can do nothing, **for it is done.**

Even as your cells are returned to light (Intelligence) by the Law of the Coming, so under the same Law are the cells of the one body also drawn up into a new casting. (And so I saw a similarity of our work with our physical body - our recognition that the cells and the atoms and the molecules are all Consciousness revealing themselves as light under the Law of Ascendence and the Presence of our enlightened Be-ing, or High Self. I saw that the human beings also were cells of the Christ Body and the Planetary Body. And that these cells, contained within the human body, were also being drawn up into cosmic marriage with the Sun.)

You cannot stay in one place. It is impossible. The reasons for your coming now shall be made clear. Hold to the Sacred Name and I will embody It as the Sun moving cautiously across the Earth. I find

continued from page 3

Myself in one and then another, drawing all up unto Me, the sacred Name of the Father Who is Divine Mother to this all new creation of vibrating form complete.

Let the story begin now. Let the story begin. Let the man know I AM, in Me, is peace.⁶ The valley of separateness disappears in the Kingdom of the One.

We are in a cosmic evolution of energy that cannot be stopped.

The Spiritual Surge

According to your conscious development do you see and understand Consciousness of Light. So it is that many already know and live in the dimensional fires of the new reality. They know that the Earth is already vibrating to the dimensional shift. They understand the new

dimensional progress of the Earth Planet and all upon it. And they also see beyond earth-zones into the Flame of Life, thus seeing here “heaven on earth”, as well as a higher evolutionary process gathering all into itself.

So, some may recognize immediately the world of light. Those who do recognize it can see through the appearance and know the light is there and is emerging in group activity and glorification of the Central Sun.

The miracle of our evolutionary experience has much to do with chakras. The more you are open and conscious of the truth the greater your benefit will be in this new dispensation. For world order is being restored in harmony with the Christ Flame and Its passage into the human heart.

continued on page 5

⁵Released to Perfection, we, as human beings, are being subjected to a new life as Cosmic Energy flows through us of the Universal One. This is cosmic marriage and a new creation.

⁶Perfect alignment, agreement with the divine Self I AM. Pure and simple, this is the completion of your cycle here.

Revelations of Light

There are different dimensions of experience due to the progress of the student, the chakras that are open and the initiations or degrees of awareness that have been experienced. Here at the World Mother Center we are - without forcing - providing a support and an opportunity for the safe opening of the chakras. This facilitates your connection into the Ascension Program and the rising vibration of this ascension program within you. The degree of your opening is the degree of your understanding. All the words in the world cannot clarify what you will understand for yourself. If your centers are open you *will* understand, and worlds will open to you that have not been known nor experienced.

A Remembrance

I want to again remind you that none of you are who you think you are. You have come from other star systems and other places of light to harmonize this planet and to help her to ascend into a whole new system of Be-ing.⁷ What you bring, as you

continued from page 4

begin to open and remember, is the consciousness of the star systems from whence you came. You bring to planet Earth the conscious awareness of who you are. And these things that you remember, these divine flames of being, these vibrations of wholistic energy pure and sweet to our Earth, these laws of *living* will be a part of a weaving of a whole new system of government. A whole new way. Your conscious accord with this way will solidify it and anchor it.

Please do not remain in the density of the third dimension. *You are needed elsewhere!* Be clothed with light now and universal love. And remember that you have come from other galaxies without shame.

You are bound no longer. We have been through this before. You are children *of the new life*. You have come to do a work for the Priesthood of Melchizedek

and this work is without division.

You are here to be agents of the Light, to agree with the Love that is entering your system and to align with It. Essentially, you were brought here to raise the planet.

You are here as stations of light to receive this Incoming Love Degree through your being, through your star system. Because you already know My Love for you, you will not oppose it. You will accept it, and that is why you are here. You will be My receptacles of Divine Love, My love for all creation.

It (this Love, Solar Love) is impersonal in its containment in you. So you will allow it to pass through your cells to reprogram your whole vibratory system and raise you up that others can see and benefit from this

continued on page 10

⁷The Breath takes it, that is what is going to happen. The full Vibration of The Christ (known as the Entrance of The Christ) carrying Itself through all life will stir the trees as well as the human heart. This is the Presence of The Master in Creative Energy flowing to you and to me. We are the consciousness to perceive this at this time. Through our perception will come a new world of vibratory form, a world of light and song.

The Transmutation of the Form

The University Papers Volume 70, #69

*I AM the Christ in position now:
as the new form emerges.
I AM that.*

Your physical and etheric bodies are transmuting all energy, releasing into the flesh that which is natural, pure and vibrating with Me (the I AM Presence or GodSelf). Thus, it is advisable to be very careful concerning what you accept and retain as "truth." A miracle of the flesh is about to occur. Watch the outer picture carefully. Remember and affirm that there is only one life. The consistency of your connection to the Christ will make it happen. That power, which is the one life, contains all the rhythmic sequence of the One. This is the Absolute Frequency, which you now experience as the *University of Melchizedek*.

This transmutation process is activated, stepping up and accelerating your spiritual journey as to permit greater revelation and *a new embodiment*. Because you have entered the School of Melchizedek, you operate in Oneness (Order of Melchizedek); the Law of Oneness is your basic law. It serves as the foundation for everything. It consistently draws you to Me, the Life Center of yourself, where brother meets brother in a new dimension of being.

My Breath takes precedence over all

energy. It is the Presence. As you turn to Me, I will fill you with My Life Energy and reclothe you in light. I repeat: Any negative energy that you retain, you choose to retain because you are given the choice. (You must take responsibility for all choices. No one does anything to you, nor can make you do anything. You are the captain of your ship. And this ship is divine!)

***I Have Come That You
Might Have Life and Have
It More Abundantly***

The only possible way for any negativity to be part of your being is for you to choose it. Your choice is what makes things happen. The Father God gives you free will. You choose the Life I AM, the Life Abundant. In doing so, you are initiated into the Brotherhood of Jesus and the way, the truth and the life.

Now choose to be elevated into a new zone of energy; the Creative Power has emerged and the glory of God is upon you. All negative energy will be transmuted when and if you agree with My Life in you. I AM

must have all of you, not a part. I AM not a slice of the pie, I AM the whole pie. I AM building My temple as you.

There will be an effect within the etheric and physical body, as the physical body now is reunited with the Christ form of reality and brought into alignment with this body of Life and Light. Such is My way and such is My plan. You are not mortal, you are immortal in My Consciousness. The movement of My sacred Life Energy cleans the vessel and prepares it for the coming of the Sun, that Light of translation, the Christ, which is moving actively toward translation of the human form into the divine. *I have founded you in light and I want you conscious of this.*

Take responsibility, because every particle of negativity contributing to error in your system must be released for transmutation into the Great Self I AM: the GodSelf. The GodSelf is your truth, your identity. It is your basic

continued on page 7

The Transmutation of the Form

radiation of supply and goodwill. And it will be clothing you with light.

Be rid of attachments to the mortal sense, all fears that have bound you. Release even your experience of "good," as you know it on the mortal plane. I AM the sanctuary of your life, the Creator of your field. I AM light itself, immortal and glowing. Now release and come home - into the Life I AM.

You are a free-will individual, born of the message of freedom. Take responsibility and give back life to Me, that I might enter you as *new life* in Christed Vibration. Oversee your own soul path. Act as an adult, a mature adult - an Initiate - on this beautiful path of ascension.

I sent Jesus to open the way that I might come.

You are entering the light cycle now for this planet Earth. It is a new degree of light. One that you have not seen yet. It is a *conscious degree*. Enjoy it, for it is with you. Abandon the old rhythms, inhibitions and attachments. A new cosmic law surrounds you and gathers you into itself. To be with Me (I AM) you must become one with this Law of Unity and Peace. It is the Creator's Law of Abundance. Do not hinder My creation for I AM coming (fourth seal is opened¹) to claim it. I come that I

continued from page 6

might see Myself in you as the I AM. I do not hinder the creation, I AM the creation, sparkling and pure.

Translate all your energies to light. Give up the past. I have *rearranged you* in Me. Realize that throughout your whole system God is love and peace abundant. God is triumphant and supreme! God receives you in Him-Herself as the I AM creation. *He knows Himself as you*. Meditate on the heart center as light; visualize light filling your whole being. See your etheric body, your subconscious, manifesting as the light body - a new body of light - so all can see and know. Let the Record show this.

Let the manifestation begin. Let there be light.

See the etheric body as light translating your physical body - the body of form - out of the mortal. You are moving into the light form where you can carry with ease and command with My authority the full, radiant Energy of the Creative Power. I have created you out of Me, so that you can do this. You have the

mighty Universe Creator² radiating through your being oneness. Nothing is impossible now. All can be done and be done well.

This is a dispensation by the Order of Michael for this time on Earth. You are prepared, if you agree with the Light, All-Consciousness God, and the Christ Truth in your system. *You will never die in Me.*

Let the fires travel through your body now. Breathe in the divine energy of light and love. And see the passage of the old.

Do not take a negative suggestion and reclaim it or you shall feel the jolt and the effect of the darkness. Stay with Me in the light that I may clothe you as My living Son/Sun on earth. Abide in Me and vibrate the holy spheres of Intelligence as GodSelf. I AM the new day upon you. Be clothed with it. I AM dressed for the bridal ceremony. I AM the resurrection plane offering Myself to you *as the light of the world*.

continued on page 8

¹Omnipresence. The God gift within you to see all in the God Presence.

²Creator Michael.

The Transmutation of the Form

When you agree, the light translates.
I embody as I AM.

The Great Announcement

It has been written and delivered here that there is an Incoming Wave of Power and Truth - a new dimension of time and space. A new energy universe is entering our planetary sphere and commencing to join it as an overlapping is occurring.³ This generates a state of confusion and even self-doubt if you have not followed the lessons of Christ alignment.

As this overlapping takes place, you are strongly advised to connect with the overlapping plane or dimensional frequency that is the vibrant new life-energy sphere of qualified life in Me. Drop the old, join the new. Connect with the new dimension. On entering this dimension of light, you are daughters and sons of light guided and directed - yea, governed - by the Christ within your mind and heart. (See Hebrews 8:10-13, which gives *the living Covenant of Light*.) Your bodies, enveloped by light of the Creator, will be like the Covenant lifted and delivered to the Mansion World where you will be regrouped (by order of Sananda) as the

continued from page 7

Priesthood of Melchizedek and returned to Earth. You are to become a lighted vehicle for the good of all.

And so it can be seen that there is a space-time overlap resulting from the adjustment to the New Energy Vibration of Creative Power. The old world and its belief system (benefiting the lower self and the mortal system) is dissolving into a *cosmic life system* that praises God eternally and lives by His-Her Laws of universality. The Creative Power emerges only for That.

There can be no compromise. How can you live in two worlds at once? Obey two masters? Take the world of your choice and be there now.

Do You Agree?

There is a new energy to be experienced in the World of Light, the new dimension of reality. This new energy stream entering your System is living light. It is already conscious of itself and has been programmed by the Ancient of Days to deliver

you up into the Arms of the Father-Mother. The Halls of Wisdom and the Dome of Knowledge will be yours in the new light.

And swiftly I come. I AM radiating My Sons life as He was with you as I AM. He was of Melchizedek Vibration; thus, I AM aligning you into that same vibration of living Law on the planet, *the Order of Melchizedek*. Your body is to be one with Melchizedek. Thus you will not know death, nor shall you cry out in darkness, *for I will cover you with light*.

Due to the resurrection of the one you know as Jesus the Christ, it can almost be said - and rightfully so - it is His spirit that has entered the Earth System and made this System His. His atomic field will govern and call into focus the Universe Plan of God on Earth. He that comes then is the original form of God in Man (consciousness) as I AM. For He holds the secret of this Order and He comes to claim it back. It is the powerful

³The news has carried the announcement of a whole new system with a Jupiter-like planet as well as planetary conditions much like Earth that may well support intelligent life. Other observations have been made of new galaxies as well as the probability of new universes.

The Transmutation of the Form

radiation of His supreme will (directed consciously) in union with the Father's will that completes your circuit now and holds you fast to the God Center you are in truth.

So you see the great Emergence of a new vibration and a new dimensional frequency of light and love is a result of Jesus' Consciousness, *the one who was sent*. (This does not discount all the beloved teachers and avatars that have paved the way for this Blessed Event.) What is scheduled to happen soon is the outpouring of Jesus the Christ's love and His revelation as the Earth is reseeded in Creative Power. *I shall take them all up now and give them to My Father who abides in Me and I in Him. And so shall they be called "wonderful."*

This outpouring is taking hold and taking body. It cannot be stopped. It is already in motion: the governing force of all the worlds of light. It is new energy coming into the planet. And it is a vibrant Creative Power. It is living light. It is intelligent energy that will be working with you in partnership. Do not lose sight of this. For instance, if you were to turn the electric lights on, you would not turn the lights on without realizing you are partnering with a friend. Even as you have contemplated and practiced cooperating and partnering with all God's creation - be it squirrel or stone - so now this vibrant new energy, this living light, is also to be gathered into your community of One.

continued from page 8

This living light, which is your new form of energy, is never to be misused. It is not for the greedy hand or the heavy heart. It is for those who can understand the Christ Atomic Field and the Christ Principle that governs. The Office of the Christ, your Inner Voice, will guide you in right-use-ness, enabling you to walk with this light, obeying the laws of Creativity, the immaculate laws of Consciousness. I draw ever closer to you in the form of Energy Divine. It is always *with consent* that we use everything as *partners*.

The Christ Force Supreme

*Wander not, My creation. Know Me now. For I AM the Living Light.
And My fountain never runs dry.*

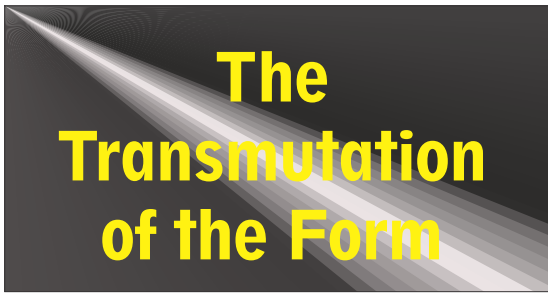

With the Living Light, a degree of conscious energy, a whole new revelation of Consciousness and a whole new model of thinking are vibrating to us in a Melchizedek rhythm of wisdom and love. The breaking through into a new dimension causes pain for some. As you can focus on the radiation of love and understand what is happening, you will be delivered of all pain.

Now, as the global consciousness becomes an actuality, we refocus our attention on "What is community and what is family, and how do we treat each other as family in the One?" This is a new revelation that binds the individual consciousness in a spiral position of universal consciousness - the body of God - so that the individual no longer thinks and judges in territorial waters *but by Life Itself!* There is a wholeness of thought because the dimensional vibration is wholeness, unity and unconditional love.

A new generation is being born. This is an introduction to a new planet and a radiant new system of government. It is a true form of democracy, making itself known through the people and through all of life. It is made up of individual consciousness threaded by consent in the One. It is the higher evolutionary threads of conscious evolution. The human life is about to meet the Master!

Our preparation here at the University of Melchizedek is to work with the Lords of Light in the teachings of the light, which

continued on page 10

continued from page 9

is decoding itself as the Creative Power on Earth. You leave the body of the lower dimension. You relax it and let it move by its own accord and agreement into the light, where you have the new body of energy that is completely at one with the new vibratory current of Conscious Resurrection that is called Christ Love.

upliftment.

Love is, and it is being unleashed at a tremendous rate on our planet Earth. You are here because you, in your awakening and in your agreeing, will be receptive. You will allow yourself to move through the spiraling re-creation process that is taking place.⁸ In doing this, you lift others.

The Coming Of The Fire Dome

Residing in “outer space” is a radiation, a field of energy or conscious fire, that when lowered and allowed to penetrate will consume the Earth as we have known it. This penetration by a dome of fire is to be extended over the human also that the dense radiation of humanhood be removed forevermore.

Here, man, is My love. God stands with you in this hour.

⁸Your atomic field is changing.
