

Return of the Light

A University of Melchizedek Newsletter

The more Spirit you absorb into your system, the less you can do of yourself. Jesus himself said that he of himself could do nothing. He also said that it is the Father within who does the work. Such a master consciousness is within you also. This creative circuit allows the cooperation of the Holy Spirit and enables the initiate to function with power and strength of purpose.

(The GodSelf by Patricia Jepsen Chuse, 48:3)

When Jesus decreed, He said I AM. He loosed the creative potency or POWER of His own being.

The Mark of the Mother

The Divine Mother Sweeps the Earth and Graduates Her into the Sun

(Selected from Entrance of the Mother Spirit, Chapter 8¹)

Receive from Her the gifts of nourishment She gives. With an open heart, receive. By the act of recognition and direct fusion with Her, receive. Be the consciousness that respects and honors the all and extends itself to all nations, all creatures, all nature, through all religions and cultures.

¹ Eight lessons. (Advanced level) This begins the initiation of the Mother Flame and the Creative Power. US\$40, US\$50 overseas. Also available soon as an E-book. See www.melchizedeklearning.com.

The Divine Mother will not know you as the Son or Christ Self without the consciousness of wholeness operating intelligently and deliberately to bless all.

Her basket is full. Be an open, willing vessel as the Sun of God. Let Her fill you with Her generosity of Spiritual abundance. Let Her fill your consciousness as a Sun with Her Spirit—rays of Christ Love and Abundant Life.

I AM the World Mother in You

With the restoration of the Mother Presence on earth, no one will go unfed. With My doctrine in place (the Holy Mother feeds all and nourishes all in Her Presence), the body of God will be formed and released as a Solar Son. The magnificence of this statement cannot be fully comprehended yet. Only when the Mother is in motion covering this planet will you understand that the Christ has come, original creation.

“What can we do to make this happen?” is the call from all who wait upon this wonder.

It is already in motion. The Spirit covers the land and begins Its ascent as It lifts many into the higher realms of containment and consciousness. The joining of the Universe Creator Michael, whom you knew as Jesus, with the Universe Mother or Creative Spirit ignites the Flame on Earth that will eventually burn away the dross of the lost years.

You are helping by your consciousness and your willingness to join with the Mother Spirit as a Presence on this earth. You have been called to do this; you have embodied to function in this way. There is no time left. It is graduation time and the blueprint, pressed into this earth through Jesus’ ascension and his processing out death, is being filled by the Mother Spirit to form a new creation.

What essentially is happening is that the Mother Spirit brings life into the divine blueprint. *She embodies it.* Her Spirit Life fills the pattern; Her Life Essence vibrates the Universe Creator’s divine plan (on earth).

All creation is adjusting to the Spirit embodying as the God presence on earth—the Christ Body or the Consciousness of the Son.

In previous lessons we have talked much about the Christ within the human heart, and the alignment with the Christ within as the “Coming of the Lord” or Self. An important assignment for the World Mother is Her meditation of the Christ birth within all humanity.

Yet, now we speak of another aspect of this emergence. It is the amalgamation of the Christ hearts into one field of Presence or *Body of Christ*. As Earth is divinely

ordained to be resurrected and glorified as God's World and headquarters for the Solar Son, the consciousness of the Universe Creator as Jesus was pressed into this Earth. Beloved Earth has held the pattern as a promise given until the Mother could appear as the Solar frequency, the union of the two in One. The whole Earth will vibrate the Living Christ Presence as the golden era begins.

The Resettlement of Humanity

A Look Back and Forward

The transition from "me" to I AM is calling for all who have been trained in the circuits of Melchizedek to serve as a community. Yet the word "community" conjures up a living condition that is not acceptable to some—particularly if you are of the Melchizedek Order: an Order that is defined in oneness *as of the Son*. And the question is asked of the disciple, "Does the self still want gratification?"

In the calling into community living, based on the Order of Melchizedek, defined by that unit of governance, comes the responsibility of the individual's assignment *within the whole* or group circle. This is Solar living and the New Consciousness on Earth. You have grown from self-preservation into immortal life. Is that clear?

Surrender is the soul's commitment to the Creator. The working of the community is based on this.

Many years ago, as I, Crystal, first awakened to my own soul assignment (1968), Archangel Michael appeared to me and touched my heart to release the records of my mission. In these records was the assignment to assist in coordinating the soul communities in areas of high energy for the purpose of stabilizing these ones *as community* before a "lift off." And I recall there was a certain time element between the gathering and implementing of the communities and the "lift off." I also know that many will choose to return to Earth to assist in the Solar Plane development of this beautiful and courageous planet. Our hearts are with her!

This has been the purpose of much of my work and why the urgent invitation has been extended to join in the building program of the World Mother Sanctuary, the Temple of Sananda, and the University of Melchizedek. We are releasing a new world of community living based on the Order of Melchizedek that can survive on this planet in the Solar Dimension of Creative Power and Divine Will. This is planetary resurrection!

Angels Are Thoughts of God

Yesterday morning (November 28, 2007) I awoke with those words in my mind. The sentence returned to me several times until I wrote: *Angels are thoughts of God*. Then my mind continued to open....

I could see the angels were, indeed, God appearing as Divine Grace—the hand of grace upon me. And I knew that each Divine Thought, whether it be the Healing Angel, the Prosperity Angel, the Angel of Revelation or the Angel of Resurrection, would embody the Perfection of Being and radiate it to me. And I saw that all the angels were drawn to our prayers and decrees by a loving God; and that the Holy Spirit or MOTHER SPIRIT carried the angels to the one who prayed and believed.

And I knew that the angels were within my God Consciousness as Divine Life and Light! “All that I AM is yours,” was the gentle whisper I heard in my contemplation. I choose, I said, to receive only angel thoughts: the giving, light-filled Presence of who I AM.

As I rest in the I AM Presence in full conviction and BELIEF, I say, Angel of Healing, come! Fill me with your spirit of divine healing and restoration. Angel of Abundant Life, come. Fill me with your prosperity and let me see and feel the works of God through me! And the angel of my calling comes. I am content, lifted and at peace.

Please see the announcement of the opening of the Angel store at the University of Melchizedek web site and the new *Angel Calendar*, a beautiful gift for Christmas from the angels at www.melchizedeklearning.com/angelstore.pdf. The Angel Calendar comes in a golden gift box with an angel gift card.
