The Solar Life: A Mighty Revelation

Enter the Community of Being that I AM. The Solar Life is being extended to you now as the rhythm of the Supreme.

God vibrates as Community. The Universe vibrates as unity with all life as community. The Creative Power in Her highest degree is formed through a community of receptivity to the Creator's Will. The Life of God, Holy Spirit, is found in community. This is the World Order and it is time we achieve that community in our hearts and minds.

The Creator does not see us as individual; He sees Himself as whole. This is the base of your Solar Dimension and it is this energy field that is grounding the Ray of Sananda and the Creative Power of the Son.

The rivers of Light now pour onto this planet to vibrate into all her cells as Consciousness of the Solar Plane and the activity of the Christ.

Meet your dimensional shift in community, in cosmic consciousness. The transition and evolution of humanity is concerned with the Jesus Consciousness, the viewing of all life as a whole. The Creator's blessing of abundant life is in the realization of community, the body of God, the Solar Field of the I AM. Walk the death program no longer. That is the program of the lower self, the separation from God. It is a false program that is denied by the Creator.

Your demonstration of Creative Power is dependent on the realization of community, wholeness and oneness with all life.

The test is to live together in genuine love and respect. The relationship of Israel and Palestine teach us of the principle of wholeness and oneness. They must embrace one another and see one another *in community*. We are in the midst of the Ingathering—that which is called the "Second Coming." Think, live in community with all life. **Conceive together the wonders and blessings I would give you as My Sons and Daughters in community with Me. Have the Power of the One.** Centers are now opening to the universal Light of the One. Join these Centers in community.

In Community

The Solar Dimension introduces a vibratory commitment to community and the Circle of Life. In this dimension you will learn what community really means and how you can become a part of a new life that pulsates interconnectedness with the Grand Circle of Creative Being. *The Solar News*, Volume 5, Number 8, will give you a good idea of the energy flowing into the earth and how it is drawing all into community, while lifting all into a higher degree of revelation as a body.

Your conscious acceptance and transference into your Christ I AM presence *as your stabilized identity circuit* is the New World Order of Consciousness. This Consciousness is the awaited Second Coming of the Christ and is the frequency known as the Christ body, the Body of Light. We are now in this dimensional shift. Your ability to accept God's original plan enables our beloved planet Earth to shift her consciousness into the Christ Energy field that is ready and waiting.

Live with majesty as the divine expression of God. Walk and talk with majesty. In your realization of your place in the Kingdom of God, you will raise this planet to light and assist in her graduation into a New World of truth and beauty.

Community is the Creative Energy flowing through all of us as God's Will. We are loved and cherished in community and we are furnished with all our needs. God's world flows beautifully through us as we accept these truths and live them.

The New Era

In the body of flesh, the body of man, Lord Jesus realized and ignited the Christ Flame within us by his awareness that *I and the Father are one*. (John 10:30) The Master rewrote the Code for humanity and proclaimed our divinity by his life. He became in his ascension our new life and he planted the Seed of Christ within each heart. Because Jesus was the Son of God in personification on this planet, he drew all humanity up into his divine blueprint. God became "closer than breathing and nearer than hands and feet." As Jesus shared his spiritual awakening with all life on earth, so did he impart a new dispensation. The Earth is no longer lost and afraid. All life has been initiated into the Kingdom of God, into the Sonship of God, and into the Christos. There is no separation between the Spirit of God and humanity. The process of awakening to this Presence is now taking place. The Living Truth beckons.

Because of these important times and the planetary shift that is occurring, many representatives of the Melchizedek Order and its Priesthood have either

incarnated or have quietly appeared to be of assistance in the turning over of this planet to Sananda.¹

Rejoice! For the nature of man is community and he will found the Body of Light as Earth's governing energy field. Your God will be with you and the Solar Plane will vibrate into existence on earth as it is in heavenly spheres.

The articles titled *In Community* and *The New Era* have been selected from *The University Papers*, Volume 6:7.
